

¹Centre of Population Oral Health and Clinical Prevention Studies, Faculty of Dentistry, UiTM,
²Department of Pediatric Dentistry and Dental Public Health, KOD, IIUM,
³Training Management Division, MOH, Federal Government, Administrative Center, Putrajaya

INTRODUCTION

- Public dentists interested in postgraduate studies were required to complete **clinical attachments** at the Ministry of Health (MOH) Dental Specialist Clinic (DSC).
- Public/Government dentists in Malaysia undergoing attachment at the MOH DSC possess **enhanced and expanded skills** that enable them to treat cases of **intermediate complexity levels**

OBJECTIVE

- This cross-sectional quantitative study aimed to explore **career satisfaction and barriers perceived** by Malaysian dentists at MOH Malaysia's DSC

RATIONALE & SIGNIFICANCE

- In Malaysia, **no studies have been conducted** to elucidate the expanded roles of the dentists at DSC MOH and their career satisfaction in performing their roles.
- Further research is required to provide **current information** regarding the **expanded roles** of this group of dentists, the **barriers being faced** to achieve their **career satisfaction**.
- The findings can be used to identify **strategies and implementations** to address the obstacles affecting their career expectations and satisfaction.
- Recommendations upon completing data collection will vary according to research findings. However, it can be projected from previous studies in other countries that providing the officers with suitable short clinical courses and financial reimbursement might be appropriate.

METHODS

Study population

- Dentists stationed in the DSCs MOH Malaysia
- Fulfil at least one year of attachment
- Permanent or partial attachment officers
- All DSCs in **all states in Malaysia** were involved, except the Federal Territory of Labuan.

Sampling

- EpiinfoTM** sample size calculator was used. α value = 0.05, power of 80% and 95% CI.
- Stratified random sampling** was used to select participants by speciality.

Inclusion criteria

Dentists who were doing their attachment in **second year onwards** at the DSCs MOH in 2022

Exclusion criteria

Dentists with **less than one-year attachment** at DSCs MOH Malaysia in 2022

Ethical Approval

From the Research Ethics Committee (UiTM), the Oral Health Program (MOH), NMRR and MREC

Study Instruments

A set of **validated and pre-tested** Online Self-administered Questionnaire

RESULTS

208 dentists out of 273 sample sizes (76%) responded. Respondents were predominantly **female** (78.4%),

- Malay (56.7%), and married (60.1%).
- They were almost **evenly split** between hospital-based (50.96%) and non-hospital-based (49.04%) clinics.
- Most respondents **had served for six to 10 years** (65.9%), had **UG48-52 of current grades** (77.9%) and had an **attachment for more than 24 months** (57.7%).
- As for **scholarship applications**, 21.6% had **applied for three and more**.

STATISTICAL ANALYSIS

- The **mean age** of the respondents was **32.68 ± 2.48**.
- The majority (72%) of them were **permanently attached** to the DSC.
- Most dentists (50.96%) **strongly agree they received no financial incentives** for their **expanded role** at the MOH DSC.
- Dentists **attached at a non-hospital-based clinic** ($p=0.046$), working with **more than 15 years of experience** ($p=0.013$) and having **12 to 18 months duration of attachment** ($p=0.014$), were **more satisfied**.
- MLR analysis revealed that non-Malay ($OR=1.54$; $p=0.035$) and those who **applied for scholarships more than three times** ($OR=1.85$; $p=0.050$) were **more satisfied**. In contrast, **over 19 months at DSC decreased career satisfaction** ($OR=0.44$; $p=0.029$).

DISCUSSION

Strength

- An **important novelty** was introduced given that no previous research either in Malaysia or worldwide has examined and investigated dentists' expanded roles with potential barriers.

Limitations

- Recall bias** will occur when the respondent provides inaccurate information regarding their previous working experience.

CONCLUSION

- Despite a **similar organisational structure**, DSC dentists had **different satisfaction levels**.
- Dentists' **ethnicity, duration of attachment, and frequency of applying for scholarships** influenced their career satisfaction.
- Future **career advancement plans** in the MOH should consider these important influencing factors to ensure the delivery of quality healthcare from their personnel.

ACKNOWLEDGMENT

- The authors thank the **Director General of Health Malaysia** for permission to present this poster.

WELCOMING REMARKS

Prof. Dr. Nazri Mohd. Yusof
Chairman of IRID2022

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ
السَّلَامُ عَلَيْكُمْ وَرَحْمَةُ اللَّهِ وَبَرَكَاتُهُ

Alhamdulillah, it gives me great pleasure to welcome you to IIUM Research and Innovation Day IRID 2022: An exhibition for health sciences research. This annual programme aims to showcase innovative research findings and encourage research collaboration.

This will be a face-to-face event to allow better interaction and discussion among researchers. We also invite researchers who have creative innovations to show their products at this event.

I hope this event will serve as a good platform for you to receive constructive feedback, share ideas and spark friendships with other researchers.

All submitted abstracts will be published in IIUM Journals of Allied Health Science (IJAHS), and awards will be given for best research and innovation among the students and staff categories.

I hope everyone benefits greatly from this event; I am looking forward to knowing you, sharing our experiences and building a lasting relationship together.

Thank you.

Agenda and Program

"Striving Together Towards Impactful Research"

14th September 2022 | Wednesday

09.00 a.m. – 05:00 p.m. | Registration and putting up poster

Note to participant: *Please put up your poster directly after registration and please take it down at the end of the program to guarantee most interactive discussion on your results. Please come to our registration table if you need assistance with putting up your poster.*

15th September 2022 | Thursday

08:15 a.m. – 08:45 a.m.	Registration of all participants and breakfast Arrival of VIPs and Invited Guests
08:45 a.m. – 09:00 a.m.	National Anthem "Negaraku" Do'a Recitation Welcoming Remarks by Prof. Dr. Nazri Mohd Yusof, Deputy Director Research Management Centre Kuantan Cum Chairman of IRID 2022
09:00 a.m. – 09:30 a.m.	Opening Ceremony and Speech By Prof. Dr. Amir Akramin Shafie, Director of Research Management Centre IIUM Cum Advisor of IRID 2022 Token of Appreciation to VIP Performance of Traditional Dance: The Overture and Zapin Beradat by Gong Mas Production
09:30 a.m. – 09:45 a.m.	Visit to the poster exhibition area Refreshment for VIPs and Invited Guests
09:45 a.m. – 10:00 a.m.	Briefing Session with Judges
10:00 a.m. – 12:30 noon	Poster Presentation and Evaluation
12.30 noon. – 02.15 p.m.	Luncheon/Break/Dhuhr Prayer
02.15 p.m. – 03:15 p.m.	Poster Presentation and Evaluation (continued)
03:15 p.m. – 04:00 p.m.	Judges Meeting Endorsement of Results Video Presentation
04:00 p.m. – 04:30 p.m.	Prize Giving Ceremony and Closing Remarks Photo session with the Award Winners IIUM song "Leading The Way"
04:30 p.m.	Evening Tea and Disperse

IIUM SONG: LEADING THE WAY

*Let's lead the way
Enlighten the future
Share the wisdom
Through the spirit of Islam
Revelation and Reason
We shall excel, we shall prevail
Merging faith and knowledge
We're the Khalīfah
We'll fulfil the amānah*

Chorus:

*Together,
We make the world a better place
Forever,
Expand the culture of Iqra'
IIUM,
Is to realise, the meaning of...
Raḥmatan lil-‘ālamīn
Together,
We make the world a better place
Forever,
Expand the culture of Iqra'
IIUM,
Is to realise, the meaning of...
Mercy to all the worlds
For all mankind*

Composer: Allahyarham Johan Nawawi

Lyricist: Prof. Emeritus. Tan Sri Dr. Mohd. Kamal Hasan

NOTES
