Greetings

Dear ladies and gentlemen,

On behalf of the Fish Health Section of the Asian Fisheries Society (FHS-AFS), I am pleased to welcome you to the 11th Symposium on Diseases in Asian Aquaculture (DAA11) Kuching, Sarawak. The early history of the FHS-AFS is closely linked with the Asian Fish Health Network (AFHN), which was initiated in 1985 with the support from the International Development Research Centre (IDRC), Canada. In 1989, the AFHN joined the Asian Fisheries Society (AFS) and the FHS was born as a formal section of the AFS. A year later, the FHS-AFS organized the 1st Symposium on Diseases in Asian Aquaculture (DAA1) in Bali, Indonesia.

What started in Bali in 1990 as a humble gathering has evolved as the biggest fish health event in Asia. Up until DAA10 in Bali in 2017, we managed to hold this symposium every 3 years for 27 years, which is impressive. To celebrate 30 years of the Symposium, we brought DAA11 to Malaysia, where the FHS-AFS was founded in 1989. DAA11 was initially planned to take place in 2020 but postponed to 2022 due to the Covid-19 pandemic. Due to travel restrictions associated with the pandemic, DAA 11 was organized as a virtual event.

DAA11 attracted 629 registered participants and 142 abstract submissions from 22 countries. With the theme of 'Land of Adventure: Exploring Aquatic Animal Health for Sustainable Aquaculture', DAA11 will cover wide ranges of aquatic animal health aspects including biosecurity in aquaculture, epidemiology, detection, prevention, and control of diseases in finfish, crustacean and shellfish. There are also sessions dedicated on trends in fish and shrimp health management. We hope this scientific programme will provide platforms for sharing knowledge, experience, and most importantly lessons learned of managing aquatic animal health in the region and beyond.

DAA11 is jointly organized by the FHS-AFS and the Malaysian Government. On behalf of the FHS-AFS, I would like to sincerely thank the Malaysian Government including the Sarawak Government, Ministry of Agriculture and Agro-Based Industry, and Department of Fisheries for their support and contributions to the organization of DAA11. This event will not be possible without the hard work of the DAA11 Technical Team of the National Organizing Committee. It is my duty to sincerely thank sponsors and exhibitors for their support to the event and to the Executive Committee and Senior Advisors of the FHS-AFS and the International Scientific Committee of DAA11 for their contributions to the development of a strong scientific programme. Last but not least, I would like to extend, my gratitude to the invited speakers and presenters for sharing their work at DAA11. I'm sure your talks will stimulate robust discussion and motivate the participants to further strengthen their networking in Asia and beyond. I hope all of you have a very productive symposium and look forward to seeing you in-person at DAA12 in 2025.

Best wishes,

Dr Agus Sunarto

Chairperson of the FHS-AFS

Welcome Message

Dear Colleague and Friends,

On behalf of the Organizing Committee, I welcome all to the first ever virtual symposium on Diseases in Asian Aquaculture (DAA). While we regret that the COVID pandemic prevented us from holding the symposium in Kuching, we are excited about the opportunities of holding an innovative virtual symposium. The 11th DAA symposium marked the starts of new approaches and strategies, where the current pandemics have reminded us of our interconnectedness, that our health, animal health, and the environment are intrinsically linked - highlighting the urgent need to increase collaboration at the national, regional, and global levels to address the issue of disease transmission in aquatic ecosystems, zoonotic diseases, antimicrobials resistance as well as aquatic animal welfare, promoting integrated and system based approach to One Health concept.

The DAA11 virtual will includes 4 days of information sharing, intellectual discussions and networking with strategic virtual exhibitions and trade displays covering wide range of topics on aquatic animal health management, development, and innovations presented by internationally recognized experts and researchers from all over Asia Pacific region and around the world. The symposium also provides an excellent platform for international partners to establish and enhance research collaborations, as well as market opportunities for aquatic products and aquaculture technologies. There will be ample time for virtual networking during the Symposium.

The promotion of aquatic animal health management is not just for specialists and scientists but for everyone in the community including farmers with lived experience, aquatic resources managers, veterinarians, aquatic animal health professional, academics, educators, students, all related fisheries industry players, and the general public. Reaching new frontiers requires fresh vision and novel strategies. Producing the symposium online fits perfectly with these aims as it will allow is to keep registration fees to a minimum and reach a wider audience than a traditional conference can possibly include.

I truly appreciate and thank our co-organizing partners, the Fish Health Section of the Asian Fisheries Society (FHS-AFS) and the Ministry of Modernization of Agriculture, Native Land and Regional Development (MANRED); our collaborators especially the Marine Fishery Resources Development and Management Department of the Southeast Asian Fisheries Development Center (SEAFDEC MFRDMD), Universiti Putra Malaysia (UPM), Universiti Malaysia Terengganu (UMT), Universiti Malaysia Sarawak (UNIMAS), International Islamic University Malaysia (IIUM), WorldFish, Malaysia Fisheries Society (MFS) dan Aquaculture Asia Pacific (AAP); and our sponsors; for their technical and financial supports, that has contributed towards the success of DAA11. My sincere appreciation also goes out to all the experts and researchers (who will be participating in the DAA11 Symposium), for their roles in sharing vital and beneficial scientific information as well as valuable experiences on aquatic animal diseases and prevention strategies, contributing and enriching the scientific, public, and private communities. I hope everyone will use these opportunities to enhance and build their capacity towards sustainable, stable, and competitive aquaculture industries for food security and aquatic ecosystem sustainability.

The virtual symposium represents an opportunity for DAA11 to inspire the world with a perspective of hope on research, diagnostics, and services of aquatic animal health in Asian aquaculture. We are certain all of you find this symposium stimulating, rewarding and meaningful.

We are looking forward to warmly welcoming you to DAA11 Virtual

Haji Mohd Sufian Bin Sulaiman

DAY 1 23 rd August (Tuesday)	08:00 - 09:45 Registration		Hybrid
	09:50 - 10:30 Opening Ceremony		Hybrid
	10:40 - 11:10 Plenary I – Dr. Melba B. Reantaso		Hybrid
	11:30 - 17:00 Farmers Day for Malaysian Farmer		Physical
	Session 1: Biosecurity in Aquaculture		
	11:10 - 11:40 Keynote 1 – Dr. Edgar Brun		Virtual
	11:40 - 12:40 Oral Presentation		Virtual
	12:40 - 13:10 3-Minute Presentation		Virtual
	Session 2: Epidemiology (Parasitic, Bacterial and Viral Diseases)		
	14:00 - 14:30 Keynote 2 – Prof. Dr. Kenton L.I. Morgan		Virtual
DAY 2 24 th August (Wednesday)	14:30 - 15:30 Oral Presentation		Virtual
	15:30 - 16:20 3-Minute Presentation		Virtual
	08:30 - 09:00 Plenary II – Dr. Rohana Subasinghe		Virtual
	Session 3: Detection Method/Diagnostic (Parasitic, Bacterial and Viral Diseases)		
	09:00 - 09:30 Keynote 3 – Prof. Karin Pittman		Virtual
	09:30 - 11:30 Oral Presentation		Virtual
	11:30- 12:00 3-Minute Presentation		Virtual
	Session 4: Prevention and Control Measures (Parasitic, Bacterial and Viral Diseases)		
	14:00 - 14:30 Keynote 4 – Dr. Huang Jie		Virtual
	14:30 - 15:45 Oral Presentation		Virtual
DAY 3 25 th August (Thursday)	15:45 - 16:00 3-Minute Presentation		Virtual
	16:00 – 16:30 Presentation of EoI to Host DAA12 in 2025		Virtual
	Session 5: Trends in Fish Health Management		
	09:30 - 10:10 Keynote 5 – Dr. Kua Beng Chu		Virtual
	10:10 - 15:00 Oral Presentation		Virtual
DAY 4 26 th August (Friday)	15:30 - 16:00 3-Minute Presentation		Virtual
	16:00 – 19:00 The 12th Triennial General Meeting of FHS-AFS (TGM12)		Virtual
	Session 6: Trends in Shrimp Health Management		
	09:30 - 10:00 Keynote 6 – Prof. Chu-Fang Lo		Virtual
	10:00 - 12:15 Oral Presentation		Virtual
	14:45 - 15:25 3-Minute Presentation		Virtual
	15:25- 16:00 Presentation of upcoming DAA12		Virtual
	16:00 – 17:00 Awards & Closing Ceremony		Virtual

Scientific Programme Schedule

Plenary	Keynote	Oral Presentation	3-Minute Presentation
---------	---------	-------------------	-----------------------

DAY 1: 23 August 2022 (Tuesday)

SESSION 1: BIOSECURITY IN AQUACULTURE

08:00 - 09:50	Registration
09:50 – 10:30	Opening Ceremony
Moderator: Dr. Eduardo Leano (Philippines/Thailand)	
10:40 – 11:10	Plenary I: Drivers and pathways to disease emergence in aquaculture and possible solution <i>Melba G. Bondad-Reantaso</i>
Moderator: Dr. Venmathi Maran Balu Alagar (Malaysia)	
11:10 - 11:40	Keynote 1: Biosecurity and sustainability <i>Edgar Brun</i>
11:40 - 11:55	OP-01: Australia's new national aquatic animal disease reporting system <i>Yuko Hood, Joshua Allas, Max de Kantzow and David Gale</i>
11:55 - 12:10	OP-02: Diagnosis in a fish farmer's backpack <i>Jerome Delamare-Deboutteville, Suvra Das, Oleksandra Silayeva, Shaun Wilkinson, Fernando Cagua, Ha Thanh Dong, Saengchan Senapin and Andrew C Barnes</i>
12:10 - 12:25	OP-03: The threat of antimicrobial resistance and solutions in reducing antimicrobials use <i>Ikhsan Natrah, Sarmila Muthukrishnan, Norfarrah Mohamed Alipiah, Md Yasin Ina-Salwany, Chong Chou Min, Low Chen Fei and Nurliyana Muhammad</i>
12:25 - 12:40	OP-04: bioDOF-Map system, a web-based GIS application for mapping fisheries biosecurity activities in malaysian <i>Eleanor Daniella Lokman, Norsida Man and Suhaida Aini</i>
Moderator: Assoc. Prof. Dr. Mohammad Noor Amal Azmai (Malaysia)	
12:40 – 12:55	3MP-01: Occurrence, antibiotic resistance and plasmid profiling of <i>Vibrio</i> spp. isolated from cultured shrimps in Peninsular Malaysia <i>Wan Haifa Haryani Wan Omar, Mohd Zamri-Saad, Mohammad Noor Azmai Amal, Natrah Fatin Mohd Ikhsan and Md Yasin Ina-Salwany</i>

12:40 – 12:55	3MP-02: Fish kill events and harmful algae blooms in peninsular Malaysia waters <u>Roziarwati Mohd Razali, Nurin Izzati Mustapa and Harman Muhd-Farouk</u>
	3MP-03: Presence of microplastics in fish parasites: a threat? <u>Najihah Mohamad, Kua Beng Chu, Rohaiza Asmini Yahya, Muhammad Syafiq Musa and Ku Kassim Ku Yaacob</u>
	3MP-04: Antimicrobial resistance surveillance from farmed aquatic foods in wet markets and antimicrobial use prevalence in Bangladesh's aquaculture <u>Shafiq Rheman, Md. Abir Hasan, Laura Khor, Chadag Vishnumurthy Mohan and Jerome Delamare-Deboutteville</u>
	3MP-05: An assessment on the emerging risks associated with aquaculture escapees: the Malaysian case studies <u>Haslawati Baharuddin, Padilah Bakar, Rimatulhana Ramly, Mohamad Sufiyan Salmi, Iftikhar Ahmad Abdul Rafi and Kua Beng Chu</u>
13:00-14:00	Lunch

SESSION 2: EPIDEMIOLOGY

Moderator: Dr. P. K. Pradhan (India)

14:00 - 14:30	Keynote 2: Investment, training, resources, rigor and speed a paradigm for aquatic epidemiology <u>Prof. Dr. Kenton L.I. Morgan</u>
14:30 - 14:45	OP-01: In <i>Litopenaeus vannamei</i> peritrophin regulates the pathogenesis of white spot disease and acute hepatopancreatic necrosis disease <u>Ramya Kumar</u>
14:45 - 15:00	OP-02: Description of a Fish Epidemiology and Health Economics (FEHE) survey tool for performance and risk factor assessment <u>Laura Khor</u>
15:00 - 15:15	OP-03: Molecular epidemiology of Megalocytivirus in Malaysian freshwater angelfish (<i>Pterophyllum scalare</i>) <u>Sandra Catherine Zainathan, Che Azarulzaman Che Johan, Muhs Danish Daniel Abdullah and Sharifah Noor Emilia Syed Jamil Fadaak</u>
15:15 - 15:30	OP-04: Characterisation of <i>Edwardsiella ictaluri</i> recovered from clinical disease outbreaks in <i>Pangasianodon hypophthalmus</i> farms in Vietnam over a twenty-year period <u>Christopher Payne, Kathryn Grace, Vo Hong Phuong, Le Hong Phuoc and Margaret Crumlis</u>

	Moderator: Dr. Neeraj Sood (India)
15:30 -16:20	3MP-01: Occurrences of <i>Vibrio</i> spp. in the samples of cockles (<i>Tegillarca granosa</i>) and Green Mussels (<i>Perna viridis</i>) cultured along West Coast of Johor <u>Azlina Apandi, Fadzilah Yusof, Mohd Lazim Mohd Saif, Azmi Rani and Mohd Farazi Jaafar</u>
	3MP-02: TiLV: New threat to Malaysia's native fish species <u>Afzan Muntaziana Mohd Pazai, Fahmi Sudirwan, Shahidan Hashim, Zuraidah Roli, Munira Murni, Suphia Amiera, Mohd Syafiq Mohd Ridzwan and Azila Abdullah</u>
	3MP-03: The surveillance of parasitic infestation on green mussels (<i>Perna viridis</i>) in several culture spots in West Coast Johor Water <u>Mohd Lazim Saif, Azmi Rani, Fadzilah Yusof, Azlina Apandi and Mohd Farazi Jaafar</u>
	3MP-04: Characterisation of pathogenic <i>Aeromonas</i> species from diseased tilapia and catfish farmed in East Nusa Tenggara, Indonesia <u>Heri Kurniawan, Jimmy F. Turnbull, Andrew P. Desbois and Mags Crumlish</u>
	3MP-05: Bacterial microbiota of freshwater prawn, <i>Macrobrachium rosenbergii</i> (de Man, 1879) cultured in cages and ponds in the Philippines <u>Ma-ann Camarin, Erlinda Cruz-Lacierda, Rolando Pakingking Jr., Rex Ferdinand Traifalgar, Nathaniel Añasco and Mark Lawrence</u>
	3MP-06: Occurrence of Tilapia Lake Virus (TiLV) in tilapia and tinfoil barbs at wild and culture sites in Malaysia <u>Azila Abdullah, Afzan Muntaziana Mohd Pazai, Mohd Syafiq Mohammad Ridzuan, Munira Murni, Aina Nabila Abdul Rahman, Zuraidah Roli and Rimatulhana Ramly</u>
	3MP-07: In-vitro antimicrobial activity of probiotics incorporated with micro feed against pathogenic <i>Vibrio parahaemolyticus</i> <u>Danial Iman, Fadhil Syukri, Siti Hajar Othman and Murni Karim</u>
	3MP-08: Infectivity and genome persistence of Tilapia tilapinevirus in water samples <u>Jidapa Yamkasem, Tharinthon Prasartset, Puntanat Tattiayapong, Kwanrawee Sirikanchanad and Win Surachetpong</u>
	3MP-09: Global seahorses diseases: A review <u>Marjorie Charam and Kua Beng Chu</u>
	3MP-10: Genomes and virulence factors of novel <i>Pseudomonas koreensis</i> strain Isolated from aquaculture farm in Kuching, Sarawak, Malaysian Borneo <u>Cindy Jia Yung Kho, Melinda Mei Lin Lau and Hung Hui Chung</u>

DAY 2: 24 August 2022 (Wednesday)

SESSION 3: DETECTION METHOD/DIAGNOSTIC (PARASITIC, BACTERIAL & VIRAL DISEASES)

08:00 - 08:30	Registration Moderator: Dr. Agus Sunarto (Indonesia/Australia)
08:30 - 09:00	Plenary II: State of global aquaculture <i>Rohana Subasinghe</i> Moderator: Dr. Yuko Hood (Australia)
09:00 - 09:30	Keynote 3: Fish wear their immune system on the outside-what this means for aquaculture and ecology <i>Pittman Karin, Merkin Grigory, Okubamichael Mearge, Powell Mark, Andersen Linda and Carlo C. Lazado</i>
09:30 - 09:45	OP-01: Profile of protein isolated from mucus of infected <i>Oreochromis</i> spp <i>M. Faizal, M. Nur-Nazifah, M.R. Syafiq, G. Wan Norazlan, A. Azila and R. Rimatulhana</i>
09:45 - 10:00	OP-02: Rapid CRISPR-based platforms for detection of major pathogens in penaeid shrimp and fish <i>Thawatchai Chaijaraspong, Suthasinee Kanitchinda, Thanwarat Sukonta, Thanyawit Thammachai, Saengchan Senapin, Kallaya Sritunyalucksana, Pimkhuan Hannanta-anan, Jiraporn Srisala, Rungkarn Suebsing, Watcharachai Meemetta, Suwimon Taengphu and Mintra Kitthamarat</i>
10:00 - 10:30	Virtual Tea break
10:30 - 10:45	OP-03: Application of a specific antibody to localize Tilapia Lake Virus (TiLV) in fish tissues using immunohistochemistry <i>Puntanat Tattiayapong, Chutchai Piewbang, Somporn Techangamsuwan and Win Surachetpong</i>
10:45 - 11:00	OP-04: An intelligent protozoan white spot fish disease detection <i>Siti Naquiah Md Pauzi, Amiera Syazlin Md Azhar, Nor Hazlyna Binti Harun, Mohamad Ghozali Hassan, Noraini Yusoff and Kua Beng Chu</i>
11:00 - 11:15	OP-05: Gut metagenome analyses of healthy and diseased tilapia <i>Oreochromis niloticus</i> cultured in Bangladesh <i>Mohammad Shamsur Rahman, Nusrat Jahan Punom, Mst. Sabrina Akter, Md. Mostavi Enan Eshik, Shawon Ahmmed, Md Golam Rabbane and Mst. Khadiza Begum</i>
11:15 – 11:30	OP-06: Glucose and glutamine contribute to de novo nucleotide synthesis to support viral pathogenesis <i>Cong-Yan Chen, Der-Yen Lee, Shih-Shun Lin, Chun-Hung Liu and Han-Ching Wang</i>

	Moderator: Dr. Ng Wing Keong (Malaysia)
11:30 – 12:00	<p>3MP-01: Mass mortalities of golden pomfret (<i>Trichinotus blochii</i>) associated with oxygen crisis, multiple infections of parasites and <i>Vibriosis</i> at floating cages Pulau Aman, Penang <u>Padilah Bakar, Rimatulhana Ramly, Fahmi Sudirwan and Kua Beng Chu</u></p> <p>3MP-02: Experimental co-infection of Tilapia Lake Virus and <i>Streptococcus agalactiae</i> in red hybrid tilapia (<i>Oreochromis niloticus</i> × <i>O. mossambicus</i>) model <u>Lukman Basri, Mohammad Noor Amal Azmai, Mohd Zamri Saad, Ina Salwany Md. Yassin, Annas Salleh and Yasmin Abd Rahman</u></p> <p>3MP-03: Investigation of culture condition inducing viable but non-culturable (VBNC) state in <i>Nocardia seriolaee</i> <u>Akito Hayashi, Megumi Matsumoto, Motohiko Sano and Goshi Kato</u></p> <p>3MP-04: Mucosal responses in giant freshwater prawn, <i>Macrobrachium rosenbergii</i> fed with diet containing natural feed premix <u>Imelda Ranty, Siti Rokhaiya Biollah, Karin Pittman, Kho Li Yung and Siti Hawa Mohamad Ali</u></p> <p>3MP-05: Experimental challenges studies on pathogenicity of <i>Edwardsiella ictaluri</i> in striped catfish, <i>Pangasianodon hypophthalmus</i> (Sauvage) <u>Amira Syahidah Nordin, Mubarak Muhyuddin Noor Zainy, Muhammad Ansarullah Mohd Subari and Nur Nazifah Mansor</u></p> <p>3MP-06: Pathogenicity and LD₅₀ of <i>Pangasius nasutus</i> against <i>Edwardsiella ictaluri</i> through injection method <u>Syafiq Syauqi and Nur Nazifah Mansor</u></p> <p>3MP-07: <i>In-vivo</i> expression of Acute Hepatopancreatic Necrosis Disease related virulence genes in <i>Vibrio parahaemolyticus</i> and <i>V. harveyi</i> and its virulence towards <i>Penaeus vannamei</i> (Boone, 1931) <u>Sarmila Muthukrishnan, Mohamed Shariff, Ina-Salwany M. 	12:00 - 14:00
	Lunch

DAY 2: 24 August 2022 (Wednesday)

SESSION 4: PREVENTION & CONTROL MEASURES (PARASITIC, BACTERIAL & VIRAL DISEASES)

Moderator: Dr. Sandra Catherine Zainathan (Malaysia)

14:00 - 14:30	Keynote 4: Emerging aquatic animal diseases and response actions to their emergencies in Asia and the Pacific Region <i>Jie Huang</i>
14:30 - 14:45	OP-01: Towards heuristic design of vaccines: Transforming transposon insertion sequencing (TIS) for identification of novel <i>in-vivo</i> virulence factors in fish pathogen <i>Qiyao Wang</i>
14:45 - 15:00	OP-02: Application of natural products: an effective approach to control fish parasites in aquaculture <i>B. A. Venmathi Maran</i>
15:00 - 15:15	OP-03: In silico selection and characterization of DNA aptamers against <i>Vibrio parahaemolyticus</i> LuxP periplasmic receptor protein <i>Low Chen Fei, Siti Aisyah Razali, Nur Afiqah Md Yusof, Azyyati Mohd. Padzil, Syarul Nataqain Baharum, Nurul Hanun Ahmad Raston, Chong Chou Min, Natrah Fatin Mohd Ikhsan, Sarmila A/P Muthu Krishnan and Magdalena Lenny Situmorang</i>
15:15 - 15:30	OP-04: Potential practical application of a live attenuated vaccine against herpesviral hematopoietic necrosis of goldfish <i>Hiroaki Saito, Shungo Minami, Manami Yuguchi, Aiko Shitara, Hidehiro Kondo, Goshi Kato and Motohiko Sano</i>
15:30 - 15:45	OP-05: Active and passive immune responses and protection of Nile tilapia (<i>Oreochromis niloticus</i>) immunized with Tilapia Lake Virus inactivated vaccines <i>Thao Thu Mai, Pattanapon Kayansamruaj, Suwimon Taengphu, Chayanit Soontara, Pattarawit Kerdee, Dinh-Hung Nguyen, Saengchan Senapin, Janina Z. Costa, Jorge del-Pozo, Kim D. Thompson, Channarong Rodkhum and Ha Thanh Dongi</i>

Moderator: Dr. Chang Siow Foong (Singapore)

15:45 – 16:30	3MP-01: Organic acid profiles of three potential probiotics from whiteleg shrimp, <i>Litopenaeus vannamei</i> <i>Jikon Alvion J. Denwinner, Ang Chun Yao, Annita Yong Seok Kian, Lim Leong Seng, Sujat Al-Azad, Francis Yong and Mohammad Tamrin Mohamad Lal</i>
	3MP-02: Field assessments of oral vibrio vaccine indicate the potential for protection against Vibriosis in hybrid grouper, <i>Epinephelus fuscoguttatus</i> × <i>Epinephelus lanceolatus</i> <i>Aslah Mohamad, Md Shirajum Monir, Mohd Zamri Saad, Mohammad Noor Amal Azmai, Nurhidayu Al-saarie and Ina-Salwany Md Yasin</i>
	3MP-03: Field efficacy of a feed-based inactivated <i>Vibrio harveyi</i> vaccine against vibriosis in cage-cultured asian seabass, <i>Lates calcarifer</i>

15:45 – 16:30	<p><u>Zahaludin Amir Danial, Aslah Mohamad, Mohd Zamri Saad, Mohammad Noor Amal Azmai, Annas Salleh and Ina-Salwany Md Yasin</u></p> <p>3MP-04: <i>In-vitro antimicrobial activity of plant extracts against fish pathogenic bacteria</i> <u>Siti Hawa Mohamad Ali, Imelda R., Kho LY., Siti Rokhaiy B. and David Y.</u></p> <p>3MP-05: Control of <i>Aeromonas</i> sp infection in nursery stage of <i>Pangasius nasutus</i> (Bleeker, 1863) through Bio-encapsulation of Herbal Extract; SirehMax in Live Feed <u>Iftikhar Ahmad A. R, Hanan M. Y., M. Zudaidy J. and Nik Haiha N. Y</u></p> <p>3MP-06: Assessment of inhibitory properties of potential probiotics isolated from <i>Aeromonas hydrophilla</i> and <i>Streptococcus agalactiae</i> <u>Shafiq Johar</u></p> <p>3MP-07: Ultrafiltration membrane technology for virus mitigation control strategy in indoor shrimp farming system <u>Norhafiza Ilyana Yatim, Diyana Kamarudin, N. Ali, S.C. Zainathan and S.N.K. Addis</u></p>
---------------	--

DAY 3: 25 August 2022 (Thursday)

SESSION 5: TRENDS IN FISH HEALTH MANAGEMENT

09:00 - 09:30	Registration
Moderator: Dr. Supranee Chinabut (Thailand)	
09:30 - 10:00	Keynote 5: Malaysian experiences: Environment-friendly alternatives to chemicals in aquatic animal health management <u>Kua Beng Chu, Padilah Bakar, Ahmad Baihaqi Othman, Rohaiza Asmini Yahya and Wan Norhana Md. Noordin</u>
10:00 - 10:15	OP-01: IgY as immunoprophylaxis in aquaculture <u>Chou Min Chong, Phek Har Chua, Mohd Shafiq Mohd Nor, Nur Syahirah Yahya and Natrah Fatin Mohd Ikhsan</u>
10:15 - 10:30	OP-02: The effects of oral feed-based vaccination against vibriosis on gut microbiome of Asian seabass <u>Jumria Sutra, Amalia Mohd Hashim, Mohd Termizi Yusof, Nurhidayu Al Saari, Ina Salwany Md Yusof and Mohammad Noor Amal Azmai</u>
10:30 – 11:00	Virtual Tea break
11:00 - 11:15	OP-03: Ectoparasites recovered from whole cage freshwater treatment on cultured marine fish disease outbreak in floating cages <u>Leong Tak Seng</u>

11:15 - 11:30	OP-04: The prospect of using aptamers and digital aptasensors for real-time surveillance of diseases in aquaculture <i>Tang Kok Mun</i>
11:30 - 11:45	OP-05: Zoonotic potential of Group B Streptococcus in aquaculture <i>Snehashish Snehashish, Ina Salwany Md Yasin, Syafinaz Amin Nordin and Mohammad Noor Amal Azmai</i>
11:45 - 12:00	OP-06: Phytobiotic-based additive for consistently improved gut integrity and health across species <i>Ruth Garcia Gomez, M. M. Isern Subich and W. G. Nuez Ortinc</i>
12:00 – 12:15	OP-07: Refolded recombinant major capsid protein (MCP) from Infectious Spleen and Kidney Necrosis Virus (ISKNV) effectively stimulates serum specific antibody and immune related genes response in Nile tilapia (<i>Oreochromis niloticus</i>) <i>Sarocha Jitrakorn, Boonyalit Throngnumchai, Triwit Rattanarojpong and Vanvimon Saksmerprome</i>
12:15 - 14:00	Lunch
14:00 - 14:15	OP-08: Effects of <i>Piper betle</i> extract supplementation diet as a natural antibiotic growth promoter (NAGP) to kelah (<i>Tor tambroides</i>) <i>Hanan Mohd Yusof, Ahmad Baihaqi Othman, Nik Haiha Nik Yusoff, Muhd Zudaify Jaapar, Azila Abdullah, M Firdaus Nawi and Nur Nazifah Mansor</i>
14:15 - 14:30	OP-09: In-vitro responses of peritoneal macrophages of marine red hybrid tilapia (<i>Oreocromis spp.</i>) model to vibriosis: A comparative study between vaccinated and non-vaccinated fish <i>Tilusha Manchanayake, Ina Salwany Md. Yassin, Mohammad Noor Amal Azmai, M. Zamri Saad, Mohd Firdaus Nawi and Annas Salleh</i>
Moderator: Dr. Andy Shinn (United Kingdom/Thailand)	
14:30 – 15:15	3MP-01: The Effect of Different Concentration of Probiotics (Lacto-sacc) Mixtures on Growth Performance and Feed Utilization of Empurau (<i>Tor tambroides</i>) Fingerlings <i>Sing Ying Chua, Roslianah Asdari and Mohammad Bodrul Munir</i>
	3MP-02: The effect of commercial cinnamon essential oil (EOCIN) against bacterial infection in farmed red snapper (<i>Lutjanus argentimaculatus</i>) <i>Noor Hanis Abu Halim, Padilah Bakar, Rohaiza Asmini Yahya, Nurhidayati Ahmad Sobri, Wan Rozana Wan Ahmad and Kua Beng Chu</i>
	3MP-03: The Management of Reared Tiger Grouper (<i>Epinephelus fuscoguttatus</i>) Infected with Marine Leech (<i>Zeylanicobdella arugamensis</i>) <i>Fadzilah Yusof, Azmi Rani, Mohd Lazim Saif Azlina Apandi and Mohd Farazi Jaafar</i>
	3Mp-04: Preliminary study of water quality in relation to benthic organism under aquaculture cages situated in Rambungan River, Lundu <i>Kho Li Yung, Imelda R, Siti Hawa MA, David Y and Siti Rokhaiya B</i>
	3MP-05: Dietary lacto-sacc improved growth performance and basic haematological parameters in empurau (<i>Tor tambroides</i>) fries reared in the aquaponics system

	<i>Mohammad Bodrul Munir, Sharifah Lia Farliana Wan Alias and Roslianah Asdari</i>
14:30 – 15:15	3MP-06: Field evaluation of palm oil adjuvanted feed-based streptococcosis vaccine efficacy in red hybrid tilapia <i>Mohd Syafiq Mohammad Ridzuan, Azila Abdullah, Mohd Firdaus Nawi, Norazsida Ramli and Hanan Mohd Yusof</i>
	3MP-07: Disinfection of rotifer, <i>Brachionus plicatilis</i> leading to bacteria-free populations using SirehMAX™ solution <i>Nur Fatin Afifah Osman Manah, Mohd Salleh Hasan, Nur Atikah Azmi, Shaharah Mohd Idris, Azila Abdullah and Nur Nazifah Mansor</i>
	3MP-08: Development of acquired immune system in striped catfish <i>Pangasianodon hypophthalmus</i> <i>Dung Nguyen Ngoc, Oanh Dang Thi Hoang, Motohiko Sano and Goshi Kato</i>

DAY 4: 26 August 2022 (Friday)	
SESSION 6: TRENDS IN SHRIMP HEALTH MANAGEMENT	
09:00 - 09:30	Registration
Moderator: Prof. Dr. Kallaya Sritunyalucksana (Thailand)	
09:30 - 10:00	Keynote 6: The quorum sensing (QS) system modulates virulence of <i>Vibrio parahaemolyticus</i> AHPND by regulating the expression of the pirAvp/pirBvp genes through AphBvp <i>Chu-Fang Lo, Shin-Jen Lin and Hao-Ching Wang</i>
10:00 - 10:15	OP-01: <i>Piper betle L.</i> leaf extracts inhibit quorum sensing of shrimp pathogen <i>Vibrio harveyi</i> and protect <i>Penaeus vannamei</i> postlarvae against bacterial infection <i>John Paul Matthew D. Guzman, Pattanan Yatip, Chumporn Soowannayan and Mary Beth B. Maningas</i>
10:15 - 10:30	OP-02: Involvement of white spot syndrome virus viral proteins in modulating shrimp glycolysis <i>Yen Siong Ng, Saengchan Senapin, Pakkakul Sangsuriya and Han-Ching Wang</i>
10:30 - 10:45	OP-03: Shrimp GDH may be regulated by SIRT4 during WSSV replication <i>Tan Yu Kent and Han-Ching Wang</i>
10:45 – 11:15	Virtual Tea break
11:15 - 11:30	OP-04: WSSV-induced metabolic reprogramming in shrimp hemocytes to benefit its re0lication <i>Han-Ching Wang</i>

11:30 - 11:45	OP-05: Quorum quenching activity in microalgae and its associated bacteria: an alternative antimicrobial therapeutics <u>Sarmila Muthukrishnan, Natrah Fatin Mohd Ikhsan and Nur Ain Yahya</u>
11:45 - 12:00	OP-06: Microbiome signatures from stocking to emergency harvest in Thailand <i>Penaeus vannamei</i> pond experienced Yellow Head Virus outbreak <u>Anuphap Prachumwat, Wiraya Eamsaard, Piyanuch Wechprasit, Apirak Hoonlor, Diana Minardi, Grant D. Stentiford and Kallaya Sritunyalucksana</u>
12:00 - 12:15	OP-07: Dietary montmorillonite clay protected <i>Penaeus vannamei</i> challenged with <i>Vibrio parahaemolyticus</i> (AHPND) and modulated stomach microbiota of shrimp Survivors <u>Wing-Keong Ng, Mei-Ling Mong and Abdul Azim Abdul Hamid</u>
12:15 - 14:45	Lunch
Moderator: Dr. Chadag Vishnumurthy Mohan (India/Malaysia)	
14:45 – 15:25	3MP-01: The effectiveness of probiotic Used in super intensive culture of white shrimp (<i>Penaeus vannamei</i>) for its health and water quality management <u>Azmi Rani, Fadzilah Yusof, Mohd Lazim Saif Azlina Apandi and Mohd Farazi Jaafar</u>
	3MP-02: Preliminary study on the effect of moist formulated feed on health status of disease infected <i>Penaeus monodon</i> broodstock <u>Mohammed Suhaimee Abd Manaf, Mohd Firdaus Azmi, Nor Aida Suzana Abdul Rahman and Rosnani Yaakub</u>
	3MP-03: Blue-green algae and assessment of microcystin in shrimp aquaculture farms of Sarawak <u>Lim Mui Hua</u>
	3MP-04: Scientometrics of climate change and shrimp disease: An overview <u>Mohamad N. Azra, Mohd Ihwan Zakariah, Mohd Iqbal Mohd Noor and Mazlan Abd Ghaffar</u>
	3MP-05: Microsporidian parasite, <i>Enterocytozoon hepatopenaei</i> at early stage of culture of whiteleg shrimps (<i>Penaeus vannamei</i>) in West Malaysia <u>Rohaiza Asmini Yahya, Padilah Bakar, Wan Muhammad Hazim Wan Sajiri, Nur Samihah Mazlan, Nur Ashikin Arbi and Kua Beng Chu</u>
	3MP-06: Unveiling the potential of medicinal plants in combating shrimp Acute Hepatopancreatic Necrosis Disease (AHPND) disease <u>Tan Wen Chian, Nisha Krishnan, Loh Jiun Yan, Baskaran Gunasekaran and Hok Chai Yam</u>
15:25 - 16:00	Presentation of upcoming DAA12

DAY 1: 23 August 2022 (Tuesday)

Session 1: Biosecurity in Aquaculture

Field evaluation of palm oil adjuvanted feed-based streptococciosis vaccine efficacy in red hybrid tilapia

Mohd Syafiq Mohammad Ridzuan^{ab*}, Azila Abdullah^a, Mohd Firdaus Nawi^b, Norazsida Ramli^c, Hanan Mohd Yusof^d

^aNational Fish Health Research Division (NaFisH), Fisheries Research Institute (FRI) Batu Maung, Department of Fisheries Malaysia, 11960 Batu Maung, Penang, Malaysia

*Corresponding author: syafiq@dof.gov.my

Vaccination plays an important role in the aquaculture industry to prevent disease outbreaks, thereby ensuring an economically viable industry. A field trial was conducted in Pedu Lake, Kedah, to determine immunoglobulin M (IgM) progression in red hybrid tilapia following oral vaccination with palm oil adjuvanted streptococciosis vaccine. A total of 6,000 tilapias of 60 ± 20 g were selected and divided into three groups of the single booster, double booster, and control group in duplicate. The single booster group was vaccinated orally at weeks 0 and 2, while fish of the double booster group were vaccinated at weeks 0, 2, and 6. Fishes from the control group were not given any vaccine throughout the experimental period. Samples of eye, brain, and kidney were collected at two weeks intervals for sixteen weeks cumulative to isolate the bacteria, while serum samples were collected to determine the antibody level. Throughout the study period, no outbreaks of streptococciosis were recorded, and none of the groups studied showed the presence of *Streptococcus agalactiae*. Very low mortality of single booster, double booster, and control group was noted at $2.1 \pm 8.5\%$, $1.3 \pm 2.8\%$, and $1.5 \pm 7.1\%$, respectively. Both vaccinated groups showed significant ($p < 0.05$) increases of IgM antibody levels following immunization of first and booster doses before went down below the cut-off value six weeks post-vaccination in the single booster group. However, IgM antibody levels in the fishes from the double booster group remained high until the end of the trial. In conclusion, oral vaccination with palm oil adjuvanted feed-based streptococciosis vaccine stimulates an adequate systemic immune response, which can confer possible protection against streptococciosis.

Keywords: Streptococciosis, *Streptococcus agalactiae*, Fish vaccine, Vaccination trial, Tilapia

Short Biography

Mr. Mohd Syafiq Mohammad Ridzuan is a research officer at National Fish Health Research Division (NaFisH), Fisheries Research Institute (FRI) Batu Maung, Department of Fisheries Malaysia. His work focuses specifically on aquatic animal health research. He received a bachelor's degree in biomolecular science and is currently pursuing a master's in marine science at International Islamic University Malaysia.
