

24th China Hospital Construction Conference 第二十四届全国医院建设大会

Invitation Letter

Dear Prof. Norwina Mohd Nawawi:

Organized by ZHU, Reed Sinopharm Exhibitions, Hospital Build and Equipment Branch of China Association of Medical Equipment and Z&R Exhibitions alongside many established agencies, in response to the Healthy China strategy, the 24th China Hospital Construction Conference & International Hospital Build and Infrastructure Exposition (CHCC 2023) will take place from June 17 to 19, 2023 at the Western China International Expo City, Chengdu.

When enhancing competitiveness for quality development, all industry players are dedicated to their core mission of top hospital build with openness, sharing, cooperation and innovation, aiming to build a new top hospital build ecosystem that stimulates future innovation and growth amid the common opportunities and challenges. That ecosystem, however, demands thinking out of the box, reaching a consensus in development, and finding new collaborative ways, as well as exploring innovation in hospital systems and mechanisms, knowledge systems, industrial development, and technology. While **"Together for the Future, to Create a Better Hospital Build Ecosystem"**, the conference gathers all from the industry to share insights into innovation and build the future.

China's Smart Hospital Conference, the 6th Medical Engineering Development and Innovation Conference, The 5th National Medical Care & Senior Service Organizations Construction and Development

Conference, the 5th China's Hospital Build and Development Entrepreneurs at New Era Summit, and the China Hospital Discipline Development Conference. Apart from more than 100 forums in different fields, CHCC 2023 will feature multi-dimensional discussions with over 10,000 industry leaders, top experts, scholars, and senior managers from home and abroad on strategic development, industrial upgrading, discipline development, planning and design, equipment, project management, technological innovation, smart operation and maintenance, and other topics. The 24th International Hospital Build and Infrastructure Exposition will include 15 exhibition zones and a 140,000-square-meter showroom for the coordinated development of the whole industry value chain engaging the government, the industry, universities, researchers, and users.

We look forward to meeting you at this annual event. Let's work together to create a great future for hospital build.

Schedule:
