Greetings Nurul'Ain,

As we get closer to EN23 in San Diego, we wanted to take a few moments to reach out and share some information with you regarding conference and your assigned ePoster 30 minute presentation time slot.

You are slotted for the following presentation time:

**Hey! I need some help here, please!:**

**Saturday, September 23, 11:30:00 AM, Monitor 2**

Presentation FAQ:

Do I need to bring my own poster?

No! All posters are electronic, please do not bring a hard copy of your poster there will be no place to display it.

The project was a group effort, do all of us come to the assigned presentation time?

The number of presenters who are available for the presentation time session is up to each group.

No one in our group is attending conference what do we do?

Please contact us ASAP to let us know. If no one from your project is attending conference, we highly encourage you to still record an audio presentation to provide attendees with a more personal and engaging experience when they view your poster.

There is a conflict with my assigned presentation time what do I do?

Please let us know ASAP. If you are assigned a presentation time that conflicts with other obligations, please reach out immediately and we will work to find a time that works better for you.

Can I hand out anything during my presentation time?

Yes, however, you will not be able to leave anything once your presentation time is complete. There will be no place to leave your handouts.

Still have questions? Please contact us at: [abstracts@ena.org](mailto:abstracts@ena.org) 847-460-4119
