Abstract

By exploring the trajectories of Islamist parties in six diverse countries (Turkey, Morocco, Tunisia, Pakistan, Indonesia, and Malaysia), this book provides a comparative analysis of the strategies employed by Islamist groups to confront established political structures through electoral processes and their subsequent governance practices if and when they assume power. The latter aspect is less explored than the predominant focus on Islamist opposition movements. © The Editor(s) (if applicable) and The Author(s), under exclusive license to Springer Nature Singapore Pte Ltd. 2024.
