

Mohamed El-Tahir El-Mesawi, a citizen of Tunisia, is a professor of Islamic legal theory and Islamic contemporary thought at the International Islamic University Malaysia (IIUM). His academic background is in economics and sociology, and he has been engaged for many years in interdisciplinary research, with a particular focus on *Maqāṣid al-Sharī'ah*, human nature and values, and social theory. He has published extensively, with over 30 journal articles and 14 books in Arabic, English and French to his credit. Moreover, he has delivered a substantial number of conference papers in Malaysia and in other countries. He serves on the editorial and advisory boards of several academic journals. In addition to his teaching responsibilities, he currently serves as editor of the International Journal of Muslim World Studies, published by the International Institute for Muslim Unity.

At the heart of Bennabi's philosophical framework lies a spirited and profound intellectual expedition anchored on the drive for civilisational renewal. His insights into these core themes are as timeless as they are transformative.

Dato' Sri Anwar Ibrahim
Prime Minister of Malaysia

This is a monumental work on an eminent Muslim intellectual whose achievements are both remarkable and multifaceted. Professor El-Mesawi translated the rich legacy of Bennabi in its totality into English, thereby facilitating access for those who would otherwise be unable to access it in either Arabic or French. Moreover, El-Mesawi's selection of topics, critical notes and bibliography are of great value for those seeking a comprehensive understanding of Bennabi's intellectual corpus.

Ibrahim Mohamed Zein
Acting Dean, College of Humanities and Social Sciences,
Hamad Bin Khalifa University, Doha.

This translation is welcome for several reasons. Briefly, it would enable many more English-speaking readers in many parts of the world who could neither read Arabic nor French to have the opportunity to read it and thus to be better acquainted with the ideas and thoughts of Bennabi and their historical contexts.
