# ACKNOWLEDGEMENT

This great task of preparing the LAM Policy and Procedures of Accreditation for Architectural Programme (PAAP) cannot be the work of the Steering Committee and Editorial Team alone, especially within the context of a fast-changing education ecosystem and increasing professional expectations. A series of briefings, discussions, workshops, and periodic MAPS meetings involving stakeholder representatives were held for almost three years. It was during these meetings, where suggestions and feedback were gathered to form a series of draft copies, resulting in the final document that you are holding today.

MAPS and the Board would like to express sincere appreciation and gratitude to individuals for the roles they played and the organisations they represented, for without their participation and contribution, the publication of this Policy would have not been possible. All of them have contributed to it within their capacity as officers and expertise carrying out their official duties while there were others who had been part of the cause based on sheer volunteerism. They have accorded the sense of integrity and credibility that is much needed by this document.
