2 July 2007 Monday	10: 45	Session-1, Chairman: Mr. Luub Wessels	
		■ Dr. Huang Xiqiu, China	
		Evolution of Healthcare Building in China-Present and Future	25 minutes
		■ Mr. Moshe ZARHY, Israel	
		Trends in Architecture of Health Facilities in the Future	25 minutes
		Questions-Discussion	10 minutes
	14: 00	Session-2, Chairman: Mr. Philip Patrick Sun	
		■ Prof. Yasushi Nagasawa, Japan	
		Geographical Aspect for sustainable health facilities	25 minutes
		■ Prof. George J. Mann, USA	
		New Sustainable Architecture for Health Projects Undertaken at Texas A&M University	25 minutes
		■ Mrs. Rosemary Glanville, UK and Mrs. Gelun, China	
		How Important is Post Occupancy Evaluation for Health Building Design?	25 minutes
		Questions-Discussion	15 minutes
	15: 30	Refreshment Break	15 minutes
	15: 45	Session-3, Chairman: Prof. George J. Mann	
		■ Prof. Fani Vavili-Tsinika and Mr. Ioannis Chatzikonstantinou, Greece	
		Novel construction materials and the morphology of health facilities	25 minutes
		■ Prof. Peter Korneli, Germany	
		Experience from hospital planning for rural areas in Germany	25 minutes
		■ Mr. Chen Guoliang, China	
		Thinking on Design of Chinese Medical Buildings	25 minutes
		Questions-Discussion	15 minutes
3 July 2007 Tuesday	09: 00	Session-4, Chairman: Mr. Hans Eggen	
		■ Mr. Philip Patrick Sun, USA	
		A Planning Process and Considerations for the Hospital of the Future	25 minutes
		■ Prof. Bas Molenaar, Netherlands	
		Presentation Erasmus MC Project : the inclusive approach	25 minutes
		Questions-Discussion	10 minutes
	10: 00	Refreshment Break	15 minutes
	10: 15	Session-5, Chairman: Dr. Geoff Abbott	
		■ Prof. Norwina Mohd Nawawi, Malaysia	
		Inculcating Traditional Values in the Design of Healthcare Facilities for Sustainability	25 minutes
		■ Prof. Romano Del Nord, Italy	
		Environmental Stress Prevention in Hospital Design	25 minutes
		■ Ms. LI Yucong, China	
		Environmental Psychology, its past and future in "Humanizing" hospitals	25 minutes
		Questions-Discussion	15 minutes
	14: 00	Session-6, Chairman: Prof. Fani Vavili-Tsinika	
		■ Mr. ODEYALE, Timothy Oluseyi, Nigeria	
		Future of Healthcare facilities in sub Sahara Africa: analyzing relationship between the built environment, tradition and urban culture	25 minutes
		■ Mr. Hans Eggen, Switzerland	
		Laboratory design for the prevention of future disasters	25 minutes
		■ Mrs. Dagmar Kahnes, Germany	
		The need for an Information System for Medical Technology in Hospital Planning	25 minutes
		Questions-Discussion	15 minutes

Inculcating Traditional Values in the Design of Healthcare Facilities for Sustainability

在设计具有可持续性的医疗设施中反复灌输的传统价值

Malaysia , Prof.Norwina Mohd Nawawi

马来西亚 诺·莫·娜瓦威伊

Abstract:

Words of wisdoms from our forefathers were based on experience and practicality. Human behaviour and inculcated culture do not change but get adapted in the circumstances. Sustainability is about coming to terms with conflicting presentation in our facility design and the need to change our paradigm of preconception to sincere evaluation of our real day-day users' needs.
