CONTENTS

CHAPTER ONE: Mechatronics System Design and Applications

| Title | Conference | Page |
|--|------------|------|
| Automation of Pump Test Rig System <i>Ahmad Faris Ismail, Iskandar Al Thani Mahmood, and Tasneem Pervez</i> | ICOM'01 | 3 |
| Auto Cruise System: A System to Assist During Traffic Congestion <i>Taufik Yunahar, Ahmad Imran Ibrahim, Asan Gani</i> | ICOM'05 | 17 |
| Low Cost SCADA System With Auto Fault Detection Using Micro Controller <i>M. Azman Shah, Khalid A. S. Al-Khateeb, And M. F. Mohammad</i> | ICOM'05 | 24 |
| Traffic Light Sequencing - An Element Of Adaptability <i>Sheroz Khan, Othman O Khalifa And Azuki Abdul Salam</i> | ICOM'05 | 32 |
| Thermal Shock in Periodic Edge-Cracked Plate Supported by Elastic Foundation <i>Abd El-Fattah A. Rizk</i> | ICOM'05 | 38 |
| Design and Development of an Automatic Car Door Opening and Locking System <i>Md. Ataur Rahman, A.K.M Mohiuddin, Irwan, Azoa and Adly</i> | ICOM'08 | 48 |
| Development Of Unmanned Vehicle Utilizing GPS System <i>M. H. Ali, S.B Abdul Hamid, M. A. Rahman</i> | ICOM'08 | 53 |
| Design Of An Autopilot For An Autonomous Unmanned Aerial Vehicle <i>M. Idres and R. Kafafy</i> | ICOM'08 | 59 |

CHAPTER TWO: Modelling and Simulation

| Title | Conference | Page |
|--|------------|------|
| Finite Element Study of Composite Cones Under Axial Compression Loading <i>Asad A. Khalid, Ahmad F. Ismail and Nurul Amin A. K. M</i> | ICOM'01 | 69 |
| Design and Analysis of a Solar Still Using Finite Element Method <i>M. I. Ahmed, Y. A. Abakar, T. Pervez and A. F. Ismail</i> | ICOM'01 | 79 |
| Anisotropic Laminated Composite Theory for Delamination Analysis of Curved Bar <i>T. Pervez and M. I. Ahmad</i> | ICOM'01 | 90 |
| Free Vibration of Variable Thickness Plates Using Characteristic Orthogonal Polynomial Strip Functions Subjected to Different Combinations of Boundary Conditions <i>Abd El-Fattah A. Rizk, Ahmed S. Ashour</i> | ICOM'01 | 101 |
| Using Spline Path in Real Time Navigation Simulations Systems, in Continuous Space <i>Ahmed Mustafa, Aisha-Hassan A. Hashim and Othman Khalifa</i> | ICOM'08 | 112 |
| Semi-Active Suspension System for Off-Road Vehicles <i>Zohir BenLahcene, Waleed F Faris, MD Raisuddin Khan and S.I. Ihsan</i> | | 119 |

CHAPTER THREE: Intelligent Systems

| Title | Conference | Page |
|--|------------|------|
| Intelligent Keystroke Pressure-Based Typing Biometrics Authentication System using Multilayer Feed-forward Network <i>A. Sulong, Wahyudi and M.U. Siddiqi</i> | ICOM'08 | 131 |

| | | |
|--|---------|-----|
| Proposed Intelligent Algorithm for IC Marking Image Inspection <i>Yasser H. and M. J. E. Salami</i> | ICOM'08 | 138 |
| The Role of Intelligent Systems in Mechatronics Engineering <i>Nahrul Khair Alang Md Rashid</i> | ICOM'08 | 144 |

CHAPTER FOUR: Instrumentation, Dynamics and Control

| Title | Conference | Page |
|--|------------|------|
| Hardware Implementation of Intelligent Braking System <i>S. N. Sidek and M. J. E. Salami</i> | ICOM'01 | 151 |
| Design And Implementation of Dsp-Based Hybrid Controller for Some Motion Applications <i>Yusuf I. Bulale, M.J.E Salami</i> | ICOM'01 | 156 |
| Fuzzy Logic Based Controller for Maintaining Human Comfort within Intelligent Building System <i>Nasrodin .T. Mustapha, Momoh J. E. Salami, Nazim M. Nasiri</i> | ICOM'05 | 167 |
| Design and Implementation of Fuzzy Logic Controller for Intelligent Gantry Crane System <i>Wahyudi and J. Jalani</i> | ICOM'05 | 173 |
| The Use of Scanning Electron Microscope in Evaluating Insulation Property <i>A.G..E. Sutjipto , Afzeri , R. Muhida , I. Sopyan 1 & E. Haruman</i> | ICOM'05 | 180 |
| A Maximum Power Point Tracking for Photovoltaic System Using Temperature Compensator Method <i>Riza Muhida, Wahyudi Martono, Afzeri, Esa Haruman, Iis Sopyan , Abdul Gani Albagul and Agus Geter Edy Sutjipto</i> | ICOM'05 | 187 |
| Neural Network Controlled of an Active Engine Mounting System Using a Nonlinear Electromagnetic Actuator <i>Fadly J.D., Wahyudi M. and Waleed F. Faris</i> | ICOM'08 | 194 |

| | | |
|--|---------|-----|
| A High Linearity CMOS RF Amplifier for Power Control Module in RFID Reader (ICOM 2008) | ICOM'08 | 203 |
| <i>M. J. Uddin, M.A. Hasan, M. I. Ibrahimy, A. N. Nordin, M. A. M. Ali and M. B. I. Reaz</i> | | |
| Design and Implementation of Fuzzy Control for Two Link Flexible Manipulator | ICOM'08 | 209 |
| <i>Waleed F. Faris, Wahyudi Martono and Omar H. J. Hajjaj</i> | | |
| State Feedback Control Tuning for Flexible Joint Manipulator Using PSO with Constraint | ICOM'08 | 215 |
| <i>Mahmud Iwan S., Andika Aji Wijaya, Wahyudi</i> | | |
| Fuzzy-based NCTF Controller for PTP Positioning: Fuzzy Membership and Rule Based Modifications | ICOM'08 | 223 |
| <i>Purtojo, Rini Akmelawati and Wahyudi</i> | | |
| Analysis of Magnetorheological Brake System with a Fuzzy Logic Controller | ICOM'08 | 231 |
| <i>M.M.Rashid, Momoh J. E. Salami, M.A.Abd. Rahim and M.A.Hussain</i> | | |
| Neural-tuned PID Control for Point-to-point (PTP) Positioning System | ICOM'08 | 237 |
| <i>Wali Ahmad @ Myo Min Htut and Wahyudi</i> | | |

CHAPTER FIVE: Machine Vision

| Title | Conference | Page |
|--|------------|------|
| Review of Image Processing in Industrial Inspection and Quality Control (ICOM 2005) | ICOM'05 | 245 |
| <i>Othman O. Khalifa and Sheraz Khan</i> | | |
| Recognition of Handwritten Arabic Characters: Challenges and Prospective (ICOM 2005) | ICOM'05 | 250 |
| <i>Sarra M. Abd Al-Rahim, Othman O Khalifa</i> | | |

| | | |
|---|---------|-----|
| A Review of Path Detection in Intelligent Video Surveillance | ICOM'08 | 258 |
| <i>Imran Moez Khan, Yusof Zaw Zaw, Othman O. Khalifa and Lai Weng Kin</i> | | |

CHAPTER SIX: Speech and Image processing

| Title | Conference | Page |
|--|------------|------|
| Reduction of Motion Artifact in Portable Pulse Oximetry (ICOM 2008) | ICOM'08 | 267 |
| <i>H. Malek, Othman O. Khalifa and I. Muhammad</i> | | |
| Lossless Audio Compression using Psychoacoustic Model and Wavelet Transform (ICOM 2008) | ICOM'08 | 274 |
| <i>Othman O. Khalifa, Sering Habib Harding and Aisha-Hassun A. Hasim</i> | | |
| An Isolated Character Segmentation Approach (ICOM 2008) | ICOM'08 | 283 |
| <i>Assma O. H. Ayyad, Othman O. Khalifa and Aisha Hassan</i> | | |
| A study of Independent Component Analysis Applicability to Fetal Heart Rate Detection Using Photolethysmogarph (ICOM 2008) | ICOM'08 | 288 |
| <i>H. Malek, Othman O. Khalifa and M. A. Mohd Ali</i> | | |
| Educational Project on a Simple Voice Identification Using Frequency Cepstrum Coefficients and Vector Quantization (ICOM 2008) | ICOM'08 | 294 |
| <i>H. K. Widhiputranto and R. Akmeliawati</i> | | |

CHAPTER SEVEN: Robotics and Automation

| Title | Conference | Page |
|--|------------|------|
| Movement Analysis for Building Intelligent Reactive Navigation Behaviours for Legged Robot | ICOM'01 | 303 |
| <i>Adel Ali S. Al-Jumaily</i> | | |
| Conceptual Design and Kinematic Analysis of Robotic Differential Gripper | ICOM'01 | 317 |
| <i>Sameh Farag M. Ghobashi, Nazim Mir-Nasiri</i> | | |

| | | |
|--|---------|-----|
| Design Of Scara-Type Multi-Loop Robotic Arm <i>Nazim Mir-Nasiri</i> | ICOM'01 | 324 |
| Humanoid Robot Head <i>A. A. Shafie, M.N. Kasyfi, N. I. Taufik Y.</i> | ICOM'08 | 331 |
| Development of Mobile Photovoltaic Robot for Exploring Disaster Area <i>Riza Muhida, Suhaimi B Mohd Zaid, Wahyudi, Rifki Muhida, Ari Legowo and Akhmad Unggul</i> | ICOM'08 | 338 |
| Investigation of a Novel Type of Locomotion for a Snake Robot Suited for Narrow Spaces <i>M. Watanabe, M.R. Khan</i> | ICOM'08 | 346 |
| Cooperative Robot and User Friendly Robot- New Challenge in Robotics (ICOM 2008) <i>Md. Mozasser Rahman and Md. Raisuddin Khan</i> | ICOM'08 | 353 |
| Inverse Kinematics of a Hyper-Redundant Robotic Manipulator <i>Syed Musrur Ahamad, Md. Raisuddin Khan, Md. Mozasser Rahman</i> | ICOM'08 | 358 |
| A Gait Transition Method for Hexapod Robots <i>Md. Masum Billah, Dr. Mohiuddin Ahmed, Soheli Farhana</i> | ICOM'08 | 364 |

CHAPTER EIGHT: MEMS and Materials

| Title | Conference | Page |
|--|------------|------|
| Quality of Cu Film Electrodeposited on Silicon Wafer Using Different Current Densities <i>Shahjahan Mridha</i> | ICOM'05 | 373 |
| Trimming of Atomic Force Microscope Probe Tip by Ion Milling <i>M. Y. Ali and B. H. Lim</i> | ICOM'05 | 381 |
| Selection of Materials and Design Specification for Hip Joint Prosthesis <i>I. Sopyan, E. Haruman, A.G.E. Sutjipto, and R. Muhida</i> | ICOM'05 | 386 |

| | | |
|--|---------|-----|
| Generalized One-Dimensional Flow Inside Thermo-Electrically Controlled Micronozzle | ICOM'08 | 394 |
| <i>Amar Hasan H and Raed Kafafy</i> | | |

CHAPTER NINE: MEMS and Materials

| Title | Conference | Page |
|---|------------|------|
| Intelligent Generator for Semi-Actual Test Data | ICOM'01 | 403 |
| <i>Shihab A.Hameed, Abdul Majid A.Al-Abbasi</i> | | |
| Improving Software Testing by Using Statistical Methods to General Multi-Structures Test Data | ICOM'01 | 414 |
| <i>Shihab A.Hameed</i> | | |
| Cellular Radio Based Vehicular Location Finding | ICOM'01 | 426 |
| <i>Farhat Anwar</i> | | |
| Controlling Electrical Appliances Using Global Mobile System | ICOM'05 | 439 |
| <i>Sheroz Khan, Muhammad Fawzi bin Husin, Mohd Halim bin Mohd Noor</i> | | |
| An Autonomous Integrated Architecture for the Next Generation Air Traffic Management and Avionics Systems | ICOM'05 | 444 |
| <i>I Ahmed, M. J Sadiq</i> | | |
| Overview of Radio Frequency Microelectromechanical Systems Reconfigurable Antennas | ICOM'05 | 450 |
| <i>A.H.M. Zahirul Alam</i> | | |
| Integrated Emergency and Guidance System Based on WiMAX Wireless Technology (IEGSW) | ICOM'05 | 458 |
| <i>S. A. Hameed and B. A. Aliyu</i> | | |
| Harmful Data Factors that Affect Internet's Users in Educational Industry | ICOM'05 | 466 |
| <i>Shihab A. Hameed</i> | | |
| Web based Documentation System for Dynamic Roadmaps | ICOM'05 | 472 |
| <i>Sajid Hassan, Mohammad Ahsan Chishti, Farhat Anwar, Chandran Elamvazuthi</i> | | |

| | | |
|--|---------|-----|
| The Power of Web Portals as a Gateway to Resources and <i>Shihab A. Hameed, Mohammad Ahsan Chishti</i> | ICOM'05 | 480 |
| Smart Antenna Design: An Overview <i>Zuhani Ismail Khan and Md Rafiqul Islam</i> | ICOM'05 | 486 |
| Performance Study of Intra-Domain Mobility Management <i>Nazreen Rusli, Fauzana Ridzuan, Aisha Hassan Abdalla Hashim and Sajid Hassan</i> | ICOM'05 | 493 |
| Performance Evaluation of Hierarchical Mobile IP <i>Aisha Hassan Abdalla, Farhat Anwar, Shaffiah Mohd, Hatina Banun Liyakthulikhhan, Sajid Hassan</i> | ICOM'05 | 500 |

CHAPTER TEN: MEMS and Materials

| Title | Conference | Page |
|---|------------|------|
| Machine Condition Monitoring and Fault Diagnosis Using Spectral Analysis Techniques <i>M.J.E. Salami, Asan Gani and T. Pervez</i> | ICOM'01 | 509 |
| Development of a New Method of Crack Modeling and Prediction Algorithm <i>A. M. Aibinu, A. A. Shafie, M. J. E. Salami, A.F. Salami, I. A. Bamgbopa and W. A. Lawal</i> | ICOM'08 | 520 |
| An Overview of Pulse Oximetry System for Noninvasive Monitoring <i>Muslim A. Abu-Umar, Liban A. Kassim and Othman O. Khalifa</i> | ICOM'08 | 528 |

CHAPTER ELEVEN: MEMS and Materials

| Title | Conference | Page |
|--|------------|------|
| Effect of Cooling Rate on Properties of Commercially Pure Aluminium <i>Faisal A. Rahim, Nur Izan Syahriah Bt. Hussein and M. M. Haque</i> | ICOM'01 | 535 |

| | | |
|---|---------|-----|
| Investigation of Chatter Arising during End Milling Operation on VMC and Quality of Machined Surface <i>A.K.M.N. Amin, M.A. Rizal, M. Razman</i> | ICOM'01 | 542 |
| Surface Roughness of Carbides Produced by Water Abrasive Jet Machining <i>Ahsan Ali Khan, Mohd Efendee Bin Awang, Ahmad Azwari Bin Annuar</i> | ICOM'05 | 556 |
| An Integrated Approach of Computer Aided Design, Rapid Prototyping and Investment Casting <i>M. M. Haque, Azdy M. Arshad and Irzal K. Helme</i> | ICOM'05 | 562 |
| Pin Type Reconfigurable Clamping Ability Evaluation for Setup- Free Technology <i>Afzeri, A.G. E Sutjipto, A.K.M Nurul Amin, Riza Muhida</i> | ICOM'05 | 569 |
| Workpiece Preheating Approach to Reduce Chatter and Improve Machinability of Titanium Alloy - Ti6Al4V <i>A. K. M. Nurul Amin, K. Kamaruddin, M. Abdelgadir</i> | ICOM'05 | 576 |
| Effect of Processing Force on Architecture And Impact Strength of Glass Fiber Reinforced Epoxy Composites <i>A. Nazrin, S. Mridha and Mohamad A. Rahman</i> | ICOM'05 | 583 |
| Investigations of the Causes of Chatter in Computer Aided Manufacturing Process during End Milling Operation <i>Md. Anayet U Patwari, A.K.M. Nurul Amin, Waleed Faris, S. Alam</i> | ICOM'08 | 591 |

Traffic Light Sequencing - an Element of Adaptability

Sheroz Khan¹, Othman O Khalifa¹ and Azuki Abdul Salam²

¹Department of Electrical and Computer Engineering, International Islamic University Malaysia

Abstract

Traffic light control system provides smooth and uninterrupted traffic flow in order to reduce accidents at junctions on heavily used roads. In this work a microcontroller is programmed to implement traffic light sequencing times, which are varying in response to values obtained from analog signals. These analog signals, assuming that they are representing traffic density, are digitized before they are used for calculating the GREEN light timings using an algorithmic approach. The YELLOW, RED, and GREEN traffic lights are shown by LEDs of corresponding colors in this project.

The value for YELLOW light is fixed, and the time for the GREEN light is set according to the analog values obtained from potentiometers. A novel way of sequence calculation of RED light is used from the above values of YELLOW and GREEN. In the beginning one of the four RED lights (Rb) LEDs to 2 seconds and GREEN light to zero, then the programming follows a recursive algorithm for calculating every subsequent value of RED based on the values of RED and next GREEN set as per values obtained from potentiometer values from the timing sequence preceding it.

1. INTRODUCTION

Traffic congestion has been a major problem throughout the world in the case of metropolitan cities. Thus, traffic control is one of the hot topics for the traffic authorities of such cities. Traffic light systems are installed at the major junctions on roads in cities and towns. Such systems are aimed at making the traffic flow smoother and reduce traffic jams caused by traffic in rushing hours of the day.

Two main categories of traffic light controllers are used currently, namely, predetermined time controller and traffic driven controller. Most of these traffic light systems follow fixed timing approach, which means the timings for the GREEN, and RED lights are fixed irrespective of the traffic volume in a given direction. Therefore, junctions with varying traffic density, commuters suffer from traffic congestion leading to unnecessary long delays in peak rush hours. Presently, efforts have been underway to make the GREEN and RED light timings responsive to the volume of the traffic at a certain time of a day.

Many approaches have been introduced in the design of traffic light controllers. For an optimal traffic light control for a single intersection, a model is available that can describe the evolution of the queue length in each lane as a function of time [1]. It discusses how optimal traffic switching schemes for such system can be determined. The arrival rates and the maximal departure rates of vehicles at the intersection will be compute traffic light switching scheme that minimize criteria such as average queue length, average waiting time and the effects of traffic congestion. It shows that for a special class of objective functions that depends strictly monotonously on the queue length at the traffic light switching time.
