## ABSTRACT

The NILAM programme is a national level programme in Malaysian schools designed to instill reading habits among school students in Malaysia. This survey assesses school teachers' awareness of the NILAM programme. Majority all teachers across the different school under study were aware of the NILAM programmes. Teachers indicated that besides using their SRCs during their spare time, NILAM programme is another time when they had the chance to use the SRC.

## 15.1 INTRODUCTION

In order to assess the respondents' awareness of the implementation of NILAM programme in their school, they were asked to tick a 'yes' or 'no' answer for this question. It was observed that about all respondents (91.3%) were aware that their schools have well-scheduled NILAM programmes. Table 15.1 summarises the results.
