ABSTRACT

In this chapter, the author discussed about the rise of aging population between developed and developing countries. The focus is on aging population in Malaysia in comparison with United Kingdom.

3.1 CONTENTS

Older people are a large and growing percentage of the worldwide population. According to the United Nations, it is estimated that there will be an increase in the number of people over 60 by the year 2050 (United Nations, 2002) as shown in Figure 3.1.
