ABSTRACT
Educational website is website that provides education info either for student or others people. Most of educational websites in Malaysia just provide information about institute itself as a platform to promote their institute. They do not provide other features such as online registration, profile information, download and so on. Other than that, there are not many educational websites that implemented Islamic elements in them. Therefore, this chapter presents a new interactive educational website called Children Educare Center System, by implementing Islamic environment like the following existing websites; Genius Aulad, Tadika Atfal and Tadika Bijak. It is hoped that this chapter can assist readers in viewing educational website as a more useful platform rather than just giving information, Insha Allah.

10.1 INTRODUCTION
10.1.1 Problem Statement
The fast growing web technology leads to enhancement in interactivity and usability. It creates a perfect environment to apply interactive educational website especially for children. Few educational websites have been developed using interactive way. Yet there is not many educational website
