## CONTENTS

### EDITORIAL NOTE
*Zulkefli Bin Muhammed Yusof................................................................. i*

### 1. Web And Mobile Based Phrase Dictionary
*Normaziah A. Aziz, Noranidah Binti Mohamad, Nur Asifah Binti Ahmad Murad ................................................................. 1*

### 2. Computerized Observation Of Motion In Badminton Tracking System
*Normaziah A. Aziz, M. Amar Odenan, Taufiq M. Khadafi .................. 11*

### 3. Analyzing Driving Behaviour Using Speech Recognition Through KDE And MLP
*Abdul Wahab Bin Abdul Rahman, Norazilah Nuji, Khadijah Adibah Ahmad ................................................................. 21*

### 4. Driver Identification and Driver’s Emotion Verification Using KDE and MLP Neural Networks
*Abdul Wahab Bin Abdul Rahman, Norzaliza Md Nor, Asma’ Ismail ................................................................. 35*

### 5. Emotion Speech Recognition Using KDE and MLP Neural Networks
*Abdul Wahab Bin Abdul Rahman, Nor Fadilah Basiron, Nor Ashikin Ishak ................................................................. 55*

### 6. Investigating Computer Forensic Tools And Their Searching Techniques
*Normaziah A. Aziz, Aniyath Ali, Mahmoud Abdul Wahab ................. 69*
7. A Web-Based Approach for the KICT Evaluation System
Al-Sakib Khan Pathan, Nurul Nabilah Kamarudin, Hasfaizaidah Hassan, Nadilatul Eliana Ali ................................................................. 87

8. Brainwave Study On The Effect Of Music On Perception
Abdul Wahab Bin Abdul Rahman, Nur Izrin Roslan, Siti Norhaizum Mohd Hasnan ................................................................. 95

Al-Sakib Khan Pathan, Ahmad Nazmi Fadzal ........................................ 113

10. A Study Using Driving Simulator To Understand Driver’s Perception A Priori And Post Priori Of Accidents
Abdul Wahab Bin Abdul Rahman, Nor Akmal Harun, Norasyikin Lipoh ................................................................. 125

11. Secure Coding in Cross Site Scripting
Normaziah A. Aziz, Milly Hafizah Mohd Kanafia, Salmiah Haseng ................................................................. 143

12. Pronouncing Dictionary for Minority Languages of Muslim Community
Normaziah A. Aziz, Ahmad Hasanul Ishraf Shuib, Mohd Fazlie Awalluddin ................................................................. 157

13. The Impact of Transmission Range over Node Density in Vehicular Ad Hoc Network (VANET) with Obstruction of Road Infrastructure
Zulkefli Bin Muhammed Yusof, Nur Nazmah Mat Zin ......................... 167

Zulkefli Bin Muhammed Yusof, Mohd Asyraf ................................... 177
15. Content Management System Minisite
Zulkefli Bin Muhammed Yusof, Ammar Bin Mat Rawi........................................ 189

16. Classification Based On Basic Emotion
Abdul Wahab Abdul Rahman, Husna Mohd Salih, Nurulhidayah Abd. Latif................................................................. 199

17. Basic Emotions Verification and Identification using Gaussian Mixture Model (GMM) Features Extraction
Abdul Wahab Abdul Rahman, Siti Norhidayah Saad, Syuwaida N. Zahari ................................................................. 211

18. SQL Injection Penetration Testing Tutorial
Al-Sakib Khan Pathan, Diallo Abdoulaye Kindy........................................ 225

19. A Survey of Photonic Switching Network
Al-Sakib Khan Pathan, M. M. Hafizur Rahman ................................... 235

20. An Evaluation of Photonic Switching Network
Al-Sakib Khan Pathan, M. M. Hafizur Rahman.................................... 255
3. **Analyzing Driving Behaviour Using Speech Recognition Through KDE and MLP**

Abdul Wahab Bin Abdul Rahman, Norazilah Nuji, Khadijah Adibah Ahmad

**ABSTRACT**
The road accidents have been increasing day by day. Researchers have stated that driver behavior is the major key factor of accident. Human behaviours are mainly influence by emotions while emotions are express via speeches. This paper is about speech emotion recognition and the correlation between speech emotion and driver behaviour. We used data corpus that contain emotional speech from different drivers. For validation purpose, we have conducted a survey from 40 respondents to verify the emotion from the data corpus. Then, we use GoldWave software as the audio editor and MATLAB as the tool for analyzed speech emotion recognition. By using MATLAB we use Kernel Density Estimation (KDE) and Multilayer perception (MLP) as a method to analyze the speech emotion.

3.1 **INTRODUCTION**
Research indicates driver behaviour as one of the contributing factors in 40-60 percent of all crashes, causing an estimated 4,000 to 8,000 traffic crashes each day. Driver behaviours come in many forms, from talking or texting on a cell phone, fatigue, stress, drowsy or under alcoholic influence.

Statistics show that traffic accidents in Malaysia have been increasing at the average rate of 9.7% per annum over the last three (3) decades.
