KNOWLEDGE MANAGEMENT:
INTERPRETATION FROM
QUR’ANIC VERSES

Azizah Hassan and Mohamad Fauzan Noordin

Abstract

Knowledge management (KM) has emerged as a new discipline in managing organization towards knowledge society. It plays important roles in establishing long term internal strength and supporting external competitive advantage or an organization. From Islamic perspective it sees the issue of knowledge is very fundamental in Islamic teaching and practice; hence knowledge culture is part of Islam. Since the life of the Prophet Muhammad (pbuh) this culture has been practiced through the implementation of the concept of iqra’. This paper attempts to explore the knowledge management from an Islamic perspective according to the interpretation of Qur’anic Verses. The study is significant as an introduction to understand Knowledge management principles and Islamic Knowledge Management at conceptual level; and how ICT tools can promote the reading and understanding of Qur’an as part of implementation of Islamic Knowledge Management in organizations.

2.1 Introduction

Knowledge management is necessary in a process of transforming information and intellectual assets into enduring value. It defines and connects people with the knowledge that they need to take action. In
