MANUFACTURING MANAGEMENT
From basic machining to quality product

EDITORS
ERRY YULIAN TRIBLAS ADESTA
AKM Nurul Amin
Mohamad Yeakub Ali

IIUM Press
CONTENTS

Preface

PART I: MACHINING

Chapter 1 - Investigation of Minimum Chip Thickness in Micro End Milling of PMMA: Process development ................................................................. 3
Mohammad Yeakub Ali¹, Asfana Banu², Adibah³, and Nur Atiqah ⁴
1, 2, 3, 4 Department of Manufacturing and Materials Engineering
Faculty of Engineering – International Islamic University Malaysia
✉️: mnyali@iiu.edu.my

Chapter 2 - Investigation of Minimum Chip Thickness in Micro End Milling of PMMA: Experiment and Analysis 800 μm Diameter Tool .............................. 11
Mohammad Yeakub Ali¹, Asfana Banu Mohamad Ashara², Adibah Abdul Wahab³, and Nur Atiqah Abdul Rahman Azmil¹
1, 2, 3, 4 Department of Manufacturing and Materials Engineering
Faculty of Engineering – International Islamic University Malaysia
✉️: mnyali@iiu.edu.my

Chapter 3 - Investigation of Minimum Chip Thickness in Micro End Milling of PMMA: Experiment and Analysis 1.0 mm Diameter Tool .............................. 18
Mohammad Yeakub Ali¹, Asfana Banu Mohamad Ashara², Adibah Abdul Wahab³ and Nur Atiqah Abdul Rahman Azmil¹
1, 2, 3, 4 Department of Manufacturing and Materials Engineering
Faculty of Engineering – International Islamic University Malaysia
✉️: mnyali@iiu.edu.my

Chapter 4 - Machining With Absent of Coolant.................................................. 26
Ummu Atiqah Khairiyah bt Mohamad
1. Faculty of Engineering – International Islamic University Malaysia
✉️: eika870126@gmail.com /eika_870126@yahoo.com/

Chapter 5 – The Effect of deep cryogenic treatment on the properties of AISI D2 Tool steel.................................................................................. 32
Erry Yulian Triblas Adesta¹ and Belal Ahmed Ghazal²
1, 2 Faculty of Engineering – International Islamic University Malaysia
E-mail: eadesta@iiu.edu.my; belalghazal88@gmail.com
Chapter 6 - Characteristic of Powder Metallurgy Compacted Electrode for EDM..........................40

Ummu Atiqah Khairiyah bt Mohamad
1. Faculty of Engineering - International Islamic University Malaysia
  : eika870126@gmail.com / eika_870126@yahoo.com

Chapter 7 - Recent Developments in EDM..............................................................................46

Norazah Binti Ishak, Prof. Ahsan Ali Khan
1. 2. Faculty of Engineering - International Islamic University Malaysia
  : nurozehh86@yahoo.com / uikhanar@iium.edu.my

Chapter 8: Surface Study when Finish Grinding Silicon using Resin Bonded Diamond Cup Wheel ..............................................................................................................53

Mohamed Konneh and Abdul Halim
Faculty of Engineering - International Islamic University Malaysia
  : mkonneh@iium.edu.my

Chapter 9: Surface Roughness Studies in Die-sink EDM of Tungsten Carbide using Copper Tungsten Electrode .................................................................................................61

Mohamed Konneh, and Muhammad Mukhtar
Faculty of Engineering, International Islamic University Malaysia
  : mkonneh@iium.edu.my

Chapter 10: Study of the Effect of different Electrodes on Material Removal Rate, Electrode Wear Rate and Surface Roughness in the EDM of S-STAR .................................................69

Mohamed Konneh, Nur Jannah Shad and Noor Fazlin Saharudin
Faculty of Engineering, International Islamic University Malaysia
  : mkonneh@iium.edu.my

Chapter 11: Kerf in Micro Wire Electro Discharge Machining .....................................................76

Abdus Sabur and Mohammad Yeakub Ali
Department of Manufacturing and Materials Engineering
Faculty of Engineering, International Islamic University Malaysia
  : asbur72@yahoo.com

Chapter 12: Investigation of Corner Radius using Micro Wire Electro Discharge Machine .................................................................82

Abdus Sabur and Mohammad Yeakub Ali
Department of Manufacturing and Materials Engineering
Faculty of Engineering, International Islamic University Malaysia
  : asbur72@yahoo.com
Chapter 13 - Crashing a Project in PERT/CPM network ................................................. 91

Zahir Hussain ¹ and Erry Yulian Tribulas Adesta ²
1, 2. Faculty of Engineering – International Islamic University Malaysia
xor: cadesta@iium.edu.my; hussain@iium.edu.my / xor:

Chapter 14 - Project Management with PERT and CPM .............................................. 100

Aalya Banu
Faculty of Engineering – International Islamic University Malaysia
xor: aalya.banu@gmail.com / xor:

Chapter 15 - Risk Management .................................................................................... 108

Siti Susilawati Kiswari
1, 2. Faculty of Engineering – International Islamic University Malaysia
xor: xor:

Chapter 16 – Development of Thermoselect Process in Waste Management System in Malaysia ................................................................. 119

Hadi Purwanto¹, Rusila Zamani bt Jusoh @ Abd Rashid²
1, 2. Faculty of Engineering – International Islamic University Malaysia
xor: hadi@iium.edu.my; shilarashid21@yahoo.com / xor:

Chapter 17 - The Impacts of Using Plastic Bags ............................................................. 125

Rusila Zamani bt Jusoh @ Abd Rashid¹
1. Faculty of Engineering – International Islamic University Malaysia
xor: shilarashid21@yahoo.com /

PART III: MATERIALS

Chapter 18 - The Use of Hydroxyapatite (Ha) For Bone Implant Application ................. 132

Rusila Zamani Bt Jusoh @ Abd Rashid¹
1. Faculty of Engineering – International Islamic University Malaysia
xor: shilarashid21@yahoo.com
Chapter 19 - Materials for Advanced Bio-Applications .......................................................139
Abreeq Rashid Naqshbandi
International Islamic University Malaysia
Email: naqshbandiabreeq@gmail.com

Chapter 20 - Advanced Corrosion Detection Techniques ....................................................148
Abreeq Rashid Naqshbandi
International Islamic University Malaysia
Email: naqshbandiabreeq@gmail.com

Chapter 21 - Biosynthesis of Nanoparticles .....................................................................156
Abreeq Rashid Naqshbandi
International Islamic University Malaysia
Email: naqshbandiabreeq@gmail.com

Chapter 22 - High Density Polyethylene (HDPE) as an Alternative Material in Fuel Tank Production ..................................................................................................................164
Atiqah Afdaluddin¹ and M.A Maleque²
1, 2 Faculty of Engineering – International Islamic University Malaysia
Email: atiqahafdaluddin@yahoo.com; maleque@iiu.edu.my

Chapter 23 - In-Situ Syntheses of High Wear Resistant Coating Reinforced Ti-6al-4v Matrix ..............................................................................................................................................173
Belal Ahmed Ghazal¹ and Erry Yulian Triblas Adesta²
1, 2. Faculty of Engineering – International Islamic University Malaysia
Email: belalghazal88@gmail.com; cadesta@iiu.edu.my

Chapter 24 - Effects of HA Loading of Porous Alumina-Hydroxyapatite Biocomposite Scaffolds .................................................................................................................................181
Nur Izzati Zulkifli
Faculty of Engineering – International Islamic University Malaysia
Email: n.izzati86@gmail.com

Chapter 25 - Natural Fiber Reinforced Polymer Composites ............................................189
Mohd Romainor Manshor³
1. Faculty of Engineering – International Islamic University Malaysia
Email: romainor@gmail.com

x
Chapter 26 - Study of Zinc Corrosion Behavior in Various Potassium Hydroxide Electrolyte Concentrations

Zul Hafiz Husain and Noraini Mohamed Noor
1, 2. Faculty of Engineering – International Islamic University Malaysia
✉: myside86@yahoo.com; norainimnoor@gmail.com

Chapter 27 Mechanical and Morphological Characterization of Porous Alumina-Hydroxyapatite Composite: Effects of Sintering Temperature

Nur Izzati Zulkifli
Faculty of Engineering – International Islamic University Malaysia
✉: n.izzati86@gmail.com

Chapter 28 - Study of Starch Addition on Porous Bioceramics Scaffolds: Effects on Strength and Porosity

Nur Izzati Zulkifli
Faculty of Engineering – International Islamic University Malaysia
✉: n.izzati86@gmail.com

Chapter 29 - SEM Analysis of Coir Fiber and Coir Fiber-Albumen-Concrete Before and After Surface Treatments

Nurizan Omar and Zuraida Ahmad
1, 2. Faculty of Engineering – International Islamic University Malaysia
✉: izan286@yahoo.com.my; zuraida@iium.edu.my

Chapter 30 - Powder Coating Has Potential In Developing Several Industries

Suryanto and Nurul Azhani Yunus
1, 2. Faculty of Engineering – International Islamic University Malaysia
✉: surya@iium.edu.my; nuraz3510@gmail.com

Chapter 31 - Ultrasonic for Non-Destructive Testing of Materials

Siti Susilawati Kiswari
Faculty of Engineering – International Islamic University Malaysia
✉: ctsusie@hotmail.com

PART IV: QUALITY

Chapter 32 - Quality Management System: In light of Project Management
Chapter 33 - Quality Management System

Siti Susilawati Kowsari
Faculty of Engineering – International Islamic University Malaysia
\texttt{e: ctsusie@hotmail.com}

Chapter 34 - The Implementation of Total Quality Management (TQM) In Kulliyyah of Engineering, International Islamic University Of Malaysia

Mohd Radzi Haji Che Daud, Khairul Adzha Bin Abu Tahir, Mohd Rujhan B Sulaiman
Faculty of Engineering – International Islamic University Malaysia

Chapter 35 - Culture Assessment on Value Based Total Performance Assessment in Kulliyyah of Engineering of International Islamic University Malaysia

Mohd Radzi Haji Che Daud, Umni Huraizah Binti Ramin
Faculty of Engineering – International Islamic University Malaysia
Culture Assessment on Value Based Total Performance Assessment in Kulliyyah of Engineering of International Islamic University Malaysia

Mohd Radzi Haji Che Daud \(^1\), Ummi Huraizah Binti Ramin\(^2\)
1, 2 Faculty of Engineering – International Islamic University Malaysia

1. Introduction

Nowadays, the successful of an organization are depends on many factors which can be in both internal and external factors. Internally, the organizations must have strong base and concepts to make them better and different from others. The better organization is doing excellent in certain practices, which is dominant to them. They may manage their human resources management, people, financial, marketing and system in different approach.

Based to the argument above, we propose a comprehensive approach of assessing performance results which goes beyond the financial measures. Value based total performance assessment is based on two concept in Islam which are “Falah” (higher level of success) and “Ihsan” (excellence). Islam demands its follower to achieve their best level in any field they involve. The total performance only can be achieved when success is accompanied by excellence. This can reflect with the suggestion by Prophet Muhammad (pbuh) who says “Allah loves those workers who perform their work to their best abilities.” (Narrated by al-Baihaqi).

Total performance can be attained through Baseline Assessment (Muhasabah). In Islam, the followers are encouraged to evaluate themselves in all their responsibilities. As Allah says, “But those will prosper who purify themselves” (al Quran, 87:14). A baseline assessment process of total performance will be unfulfilled in the absence of a proper measurement system.

In this research is particularly important, as part research did not identify the precise relationship between the different types of organizational culture and the varied types of organizational commitment, and its effects on organizational performance. The earlier research work focused more on independent relationships, such as culture and performance, or commitment and performance. Further, this research could clarify the association between the cores values obtain in culture itself with the various type of commitment in the organization. Core values are associated with moral
