DESIGN FOR MANUFACTURE
Towards Improved Manufacturability

IIUM Press
CONTENTS

Preface

PART I: DESIGN

Chapter 1 - Design of a Simple and Affordable Electric Bicycle .................................................. 04
Tasnim Firdaus Ariff¹, Goey Ewing² and Kam Yee Wah²
1 Faculty of Engineering – International Islamic University Malaysia
2,3 School of Technology, Tunku Abdul Rahman College
✉️: tasnim@iium.edu.my

Chapter 2 - Design of Bicycle Helmet Using FEA ....................................................................... 10
Tasnim Firdaus Ariff¹ and Lau Ken Tiek²
1 Faculty of Engineering – International Islamic University Malaysia
2 School of Technology, Tunku Abdul Rahman College
✉️: tasnim@iium.edu.my

Chapter 3 - Mould Design for Handphone Casing Using Moldflow .......................................... 18
Tasnim Firdaus Ariff¹ and Law Siah Yong²
1 Faculty of Engineering – International Islamic University Malaysia
2 School of Technology, Tunku Abdul Rahman College
✉️: tasnim@iium.edu.my

Chapter 4 - Improvement of Typical Hip-Joint Design for Gripping and Fixing ....................... 26
Siti Norbahiyyah Binti Mohamad Badarî¹ and Erry Adeesta²
1, 2 Faculty of Engineering – International Islamic University Malaysia
✉️: edesta@iium.edu.my

Chapter 5 - A Surgical Training Model Manufacture Using Fused Deposition Modeling .............. 44
Hasanudin Hafis Mohamad Ali, Md. Amir Hamzah Md. Shukri, WAY Yusoff
Faculty of Engineering – International Islamic University Malaysia
✉️: hasan.ma86@gmail.com; mdamirhamzah87@gmail.com
Chapter 6 - Reverse Engineering for Rapid Prototyping of Automotive Components ....... 50
WAY Yusoff¹, Muhammad Ridhuan Kamardin² and Noor Iliana Mohd Salimi³
1, 2, 3 Faculty of Engineering - International Islamic University Malaysia
✉ : yusmawizai@iium.edu.my; wan_ching05@yahoo.com.my; nuriliana@yahoo.com

Chapter 7 - Design and Fabrication of Industrial Welding Robotic Arm .................. 58
Syed Idros Syed Abdullah¹, Mohamad Syatbi Mahamad Pazi², and WAY Yusoff³
1,2,3. Faculty of Engineering - International Islamic University Malaysia
✉ : yusmawizai@iium.edu.my

PART II: QUALITY

Chapter 8 - Application of Statistical Quality Control for Quality Improvement ........... 66
Tasnim Firdaus Ariff¹ and Yap Yee Seng²
1 Faculty of Engineering - International Islamic University Malaysia
2 School of Technology, Tun Abdul Rahman College
✉ : tasnim@iium.edu.my

Chapter 9 - The Development of Cost Estimation for Quality Assurance System in Die-
Casting Processes ................................................................................................. 72
Nur Hanisah A Hamzah¹ Nurhafizah Azmi² and Ery Yulian Triblas Adesta³
1, 2, 3 Faculty of Engineering, International Islamic University Malaysia
✉ : cadesta@iium.edu.my

Chapter 10 - Study the Adherence of the Values in The ISO 9001:2000 Certified
Companies in Malaysia .......................................................................................... 84
Dr. Mohd Radzi Bin Haji Che Daud¹ and Rusdi Bin Mat Song²
1, 2. Faculty of Engineering - International Islamic University Malaysia

Chapter 11 - Cost Comparison Analysis between Strip to Coil for Support Brake Pedal at
Suria Component (M) Sdn. Bhd ............................................................................. 92
Dr. Mohd Radzi Bin Haji Che Daud¹, Shamin Asyrafi Bt Ali³, Norhayati Bt Saleh³
1,2,3. Faculty of Engineering - International Islamic University Malaysia

Chapter 12 - Performance Measurement of SMEs Manufacturing Sector
in Malaysia .................................................................................................................. 98
Chapter 13 - The Introduction of Fit Manufacturing as a Performance Measuring Approach towards Sustainability of Selected Manufacturing Companies in Malaysia

WAY Yusoff, Muhammad Fauzan Md Neraini and Mohd Norazrul Ismail
1, 2, 3 Faculty of Engineering - International Islamic University Malaysia
✉️: yusmawiza@iium.edu.my

Chapter 14 - The Study of the Implementation of OHSAS: 18001 at Kulliyyah of Engineering

WAY Yusoff, Aziatul Ashikin Mohd and Siti Maznah Abdul Rahim
1, 2, 3 Faculty of Engineering - International Islamic University Malaysia
✉️: yusmawiza@iium.edu.my

Chapter 15 - Implementation of FMECA on Fixed Assembly Cell (FAC)

WAY Yusoff and Paul Roberts
1. Faculty of Engineering - International Islamic University Malaysia, 2. Warwick Manufacturing Group - Warwick University, United Kingdom
✉️: yusmawiza@iium.edu.my

Chapter 16 - Implementation of FMECA on Computer Integrated Manufacturing (CIM)

WAY Yusoff and Azmil Soleh
1, 2 Faculty of Engineering - International Islamic University Malaysia
✉️: yusmawiza@iium.edu.my

PART III: MATERIALS

Chapter 17 - The Effect of Stucco System in Ceramic Shell Investment Casting

Siti Norbahiyyah Binti Mohamed Badari and Erry Adesta
1, 2. Faculty of Engineering – International Islamic University Malaysia
✉️: eadesta@iium.edu.my
PART IV: MODELLING

Chapter 23 - Numerical Analysis to Characterize Triaxiality Value of Adhesive Joint due to Particular Load Configuration. Part 1: Butt Joint ............................... 194

Irfan Hilmy
MME Dept., Faculty of Engineering – International Islamic University Malaysia
☎: ihilmy@iium.edu.my
Chapter 24 - Numerical Analysis to Characterize Triaxiality Value of Adhesive Joint due to particular Load Configuration. Part 2: Cleavage and Scarf Joint ...... 202

Irfan Hilmy
Faculty of Engineering – International Islamic University Malaysia
✉️: ihilmy@iium.edu.my

Mohammad Iqbal
1. Faculty of Engineering – International Islamic University Malaysia
✉️: mohammad_iqbal@iium.edu.my

PART V: MANAGEMENT

Chapter 26 - Value Stream Mapping: an Important Footstep for Value Analysis and Value Engineering ................................................................. 223

A. N. Mustafizul Karim and Nurul Husna Binti Azon
Faculty of Engineering, International Islamic University Malaysia
✉️: mustafizul@iium.edu.my

Chapter 27 - The Project Management Challenges in Technology Innovation .......... 231

Mahmood Hameed Mahmood and Erry Yulian Triblas Adesta
1, 2. Faculty of Engineering – International Islamic University Malaysia
✉️: mahmoodfattah@yahoo.com / ✉️: eadesta@iium.edu.my

Chapter 28 - Critical Chain in Project Management .................................................. 239

Erry Yulian Triblas Adesta, Asfana Banu Mohamad Ashraf, Nur Atiqah Abdul Rahman Azmil
1, 2, 3 Faculty of Engineering – International Islamic University Malaysia
✉️: eadesta@iium.edu.my

PART VI: MACHINING

Chapter 29 - Engineering Project Management in Automotive Industry ......................... 247

Mohamed Konneh, and Abdul Halim
Faculty of Engineering - International Islamic University Malaysia
Chapter 30 - Surface Study when Finish Grinding Silicon using Resin Bonded Diamond Cup Wheel........................................................................................................ 257

Mohamed Konneh, and Muhammad Mukhtar
Faculty of Engineering, International Islamic University Malaysia
Email: mkonneh@iium.edu.my

Chapter 31 - Surface Roughness Studies in Die-sink EDM of Tungsten Carbide using Copper Tungsten Electrode ........................................................................ 264

Mohamed Konneh, and Abdul Halim
Faculty of Engineering - International Islamic University Malaysia
Email: mkonneh@iium.edu.my

Chapter 32 - Study of the Effect of different Electrodes on Material Removal Rate, Electrode Wear Rate and Surface Roughness in the EDM of S-STAR .................................................................................................................. 272

Mohamed Konneh, Nur Jannah Shad and Noor Fazlin Saharudin
Faculty of Engineering - International Islamic University Malaysia
Email: mkonneh@iium.edu.my

Chapter 33 - Kerf in Micro Wire Electro Discharge Machining ......................................................... 279

Abdus Sabur and Mohammad Yeakub Ali
Department of Manufacturing and Materials Engineering
Faculty of Engineering, International Islamic University Malaysia
Email: asbur72@yahoo.com

Chapter 34 - The Effect of Deep Cryogenic Treatment on the Properties of AISI D2 Tool Steel .................................................................................................................................................................................................................................................................................. 286

Belal Ahmed Ghazal and Erry Yulian Triblas Adesta
1, 2. Faculty of Engineering – International Islamic University Malaysia
Email: belalghazal88@gmail.com; c: cadesta@iium.edu.my

Chapter 35 - Effect of Welding Process on Formability of Tailor Welded Blanks ............ 294

Umer Mushtaq and Erry Yulian Triblas Adesta
1, 2. Faculty of Engineering – International Islamic University Malaysia
Email: mirkaz9@hotmail.com; mirmkaz9@yahoo.com; c: cadesta@iium.edu.my

xii
Chapter 30 - Surface Roughness Studies in Die-sink EDM of Tungsten Carbide using Copper Tungsten Electrode ........................................... 257

Mohamed Konneh, and Muhammad Mulhtar
Faculty of Engineering, International Islamic University Malaysia
✉: mkonneh@iium.edu.my

Chapter 31 - Study of the Effect of different Electrodes on Material Removal Rate, Electrode Wear Rate and Surface Roughness in the EDM of S-STAR.................... 264

Mohamed Konneh, and Abdul Halim
Faculty of Engineering - International Islamic University Malaysia
✉: mkonneh@iium.edu.my

Chapter 32 - Kerf in Micro Wire Electro Discharge Machining........................................... 272

Abdus Sabur, and Mohammad Yeakub Ali
Department of Manufacturing and Materials Engineering
Faculty of Engineering, International Islamic University Malaysia
✉: sabor72@yahoo.com

Chapter 33 - Engineering Project Management in Automotive Industry ......................... 279

Mohammed Kaleemullah, Erry Yulian Triblas Adesta, Waleed F. Faris
1 Faculty of Engineering, International Islamic University Malaysia
mkalimi@gmail.com, eadesta@iium.edu.my, waleed@iiium.edu.my

Chapter 34 - The Effect of Deep Cryogenic Treatment on the Properties of AISI D2 Tool Steel ................................................................................. 286

Belal Ahmed Ghazal, and Erry Yulian Triblas Adesta
1, 2. Faculty of Engineering – International Islamic University Malaysia
✉: belalghazal88@gmail.com; ✉: eadesta@iium.edu.my

Chapter 35 - Effect of Welding Process on Formability of Tailor Welded Blanks .......... 294

Umer Mushtaq, and Erry Yulian Triblas Adesta
1 2. Faculty of Engineering – International Islamic University Malaysia

Chapter 10

Study the Adherence of the Values in the ISO 9001:2000 Certified Companies in Malaysia

Dr. Mohd Radzi Bin Haji Che Daud¹ and Rusdi Bin Mat Song²
1, 2. Faculty of Engineering -- International Islamic University Malaysia

1. Introduction

ISO 9001: 2000 is the level of quality that all organizations or companies should have. This level of quality has been setup by the International Organization for Standardization (ISO). ISO 9001:2000 is an international standard containing requirements for establishing and maintaining company’s quality management system. This quality management system is set up by a company to establish a quality policy and quality objectives, and to establish the means to achieve those objectives. This standard is very general and universal. It can be applied from product manufacturers to service providers. This ISO 9001 is divided into four main sections; (i) management responsibility, (ii) resource management, (iii) product realization, and (iv) measurement, analysis and improvement. Although ISO has underlined a clauses that must be fulfilled to achieve the ISO 9001:2000 certification, we felt that ISO certification is not sufficient in developing and establishing values. We could say that the certification of the ISO 9001:2000 is somehow neglecting and lack of moral and spiritual values. This is because through this certification people tend to work on the bases of producing and supplying the customer the best quality products and at the same time neglecting the values that one must have.

2. Objectives of Study

The main objective of this project is to study on the values that are embedded in ISO 9001:2000 certified companies in Malaysia. After having explained the basic definition of ISO, the challenge is now focusing on analyzing the data. Hence, it is of much hope that at the end of this project, the objective of the project would achieve such as follows:
