2. ARITHMETIC EXPRESSIONS AND DATA TYPES IN C++
Asadullah Shah and Assadullah Shaikh ........................................... 5

3. SENDING THE OUTPUT TO A PRINT FILE
Asadullah Shah and Assadullah Shaikh ........................................... 11

4. DECISION MAKING: IF-ELSE STATEMENTS AND RELATIONAL OPERATORS
Asadullah Shah and Assadullah Shaikh ........................................... 17

5. LOGICAL OPERATORS AND SWITCH STATEMENTS
Asadullah Shah and Assadullah Shaikh ........................................... 25

6. REVIEW, SUMMARY & BUILDING SKILL
Asadullah Shah and Khamran Khowaza ........................................... 33

7. ITERATIVE STRUCTURES
Asadullah Shah and Khamran Khowaza ........................................... 39
8. THE FOR LOOP
Asadullah Shah and Khamran Khowaza ............................................. 49

9. THE DO-WHILE LOOP
Asadullah Shah and Khamran Khowaza ............................................. 55

10. REVIEW OF VARIABLES, FORMATTING
Asadullah Shah and Khamran Khowaza ............................................. 59

11. REVIEW OF ITERATIVE STRUCTURES
Asadullah Shah and Sumbul Khowaza ............................................. 63

12. POST-TEST AND NESTED LOOPS
Asadullah Shah and Sumbul Khowaza ............................................. 73

13. FUNCTIONS
Asadullah Shah and Sumbul Khowaza ............................................. 83

14. CALL-BY-VALUE AND REFERENCE
Asadullah Shah and Sumbul Khowaza ............................................. 91

15. MORE ON FUNCTIONS
Asadullah Shah and Sumbul Khowaza ............................................. 99

16. STRUCTURES (STRUCT) AND FILES
Asadullah Shah and Muniba Shaikh ............................................. 111

17. ARRAYS
Asadullah Shah and Muniba Shaikh ............................................. 119

18. EXERCISE OF ARRAY
Asadullah Shah and Muniba Shaikh ............................................. 127
19. READ DATA FROM A FILE
Asadullah Shah and Muniba Shaikh ........................................ 137

20. OBJECT ORIENTED PROGRAMMING
Asadullah Shah and Muniba Shaikh ........................................ 143

21. SELECTION SORTING
Asadullah Shah and Syed Ifihar Ali ........................................ 153

22. BUBBLE SORT ALGORITHM
Asadullah Shah and Syed Ifihar Ali ........................................ 161

23. REVIEW OF ARRAYS
Asadullah Shah and Syed Ifihar Ali ........................................ 167

24. LINEAR SEARCHING
Asadullah Shah and Syed Ifihar Ali ........................................ 179

25. BINARY SEARCH
Asadullah Shah and Syed Ifihar Ali ........................................ 189

26. VECTOR CLASS
Asadullah Shah and Ejaz Ahmed ........................................... 199

27. POINTERS
Asadullah Shah and Ejaz Ahmed ........................................... 203

28. FUNCTION POINTERS
Asadullah Shah and Ejaz Ahmed ........................................... 213

29. POLYMORPHISM AND VIRTUAL FUNCTIONS
Asadullah Shah and Ejaz Ahmed ........................................... 219
30. C++ REFERENCES
Asadullah Shah and Ejaz Ahmed .................................................. 223

31. CONST CORRECTNESS
Asadullah Shah and Osama Mahfooz .......................................... 229

32. MORE ON CONST KEYWORDS
Asadullah Shah and Osama Mahfooz .......................................... 235

33. GOTO STATEMENT
Asadullah Shah and Osama Mahfooz .......................................... 241

34. HANDLING ERRORS IN C++
Asadullah Shah and Osama Mahfooz .......................................... 249

35. STATIC: THE MULTIPURPOSE KEYWORD
Asadullah Shah and Osama Mahfooz .......................................... 253
6. **Review, Summary & Building Skill**

Abstract

In programming languages the most effective way of building concepts is by practicing it. Sometimes very simple logic and procedure need to be revised to learn an efficient logical flow in a program. Skill building by practicing is one of the most effective means for students to lay their skills foundations better for next more complex and logical programming skills. In this chapter many exercise based upon previous chapters is revised to let student keep such simple but important concepts.

6.1 Exercise number one

This exercise is based upon the chapter number one in which a see you brother message to stoked back on the monitor is written. The program was very simple to use two functions and get characters by key board strokes. In figure 6.1 the same program is repeated and answer for line by line code of the program are required.
