Communication Technology, International Islamic University Malaysia,  
Malaysia

## **Abstract**

The installation of any software is must for application to be properly recognized by the operating systems. The installation is required for both hardware as well as for any new software to work with. In this chapter the students will be taught the process that is basically two step process. Along the installation student will learn about licensing of software issues, agreements between parties venders and users and so on.

## **12.1 Introduction**

Windows 7 is the latest version of Windows Operating System. Step by step for the installation will describe in the next section.

## **12.2 Installation process**

Installing Windows 7 can take up to two hours. To make the process more manageable, it has been broken up into two sections.

- Part 1: Begin the installation
- Part 2: Continue the installation

### ***12.2.1 Part 1: Begin the installation***

1. Insert the Windows 7 DVD into your computer and restart your computer.
