Abstract

The Cascaded Style Sheets are used for formatting the web pages. The CSS can support designers with various options to change color, font size, text format and variety of other functions.

20.1 Introduction

Cascading Style Sheet (CSS) is a web programming language that used to control multiple components in a web. CSS used to control image size, text color, color tables, border size, border color, the color of hyperlinks, mouse over the color, spacing between paragraphs, text spacing, margins left, right, up, down, and other parameters. With the CSS user can display the same page with different formats.

20.2 Objectives

The objective of this lab task is to understand CCS. How to design pages using Style Sheets is focus of this lab task.
