Communication Technology, International Islamic University Malaysia,  
Malaysia

## Abstract

The clone is the tool to remove and add some parts from given image. The students will learn managing one image by changing it into a new image emerging from the old images by placing required clone piece by piece. The image creative abilities of the students may enhance while using such tools.

## 24.1 Introduction

Image Clone tool allows user to duplicate part of an image. The Clone tool paints one part of an image over another part of the same image or over another part of any open document that has the same color mode. User can also paint part of one layer over another layer. The Clone tool is useful for duplicating objects or removing a defect in an image.

## 24.2 Clone Tool

Using Clone Tool, remove rabbits from the image except for any one rabbit.

### Creating Objects Using Photoshop Tools:

#### Step 1:

Start a new document of size 200x200 pixels.

Draw an ellipse using the elliptical marquee tool and fill it with black colour.
