2.7 Landscape space 1	49	4.4 Interior space 4	157
2.8 Landscape space 2	54	4.5 Exterior space 1	163
2.9 Landscape space 3	60	4.6 Exterior space 2	169
2.10 Landscape space 4	67	4.7 Exterior space 3	175
		4.8 Exterior space 4	181
		4.9 Urban space 1	187
		4.10 Urban space 2	193
		<b>REFERENCES</b>	199

To sketch well is not necessarily an inherent talent that one needs to be born with; rather, it is a skill that can be learned through many techniques. One of them is the easily acquired perspective setting technique.

The purpose of this book is to share, in a creative way, the knowledge on perspective setting sketching technique. The main core of this technique is the imaginary box concept which can be learned by many, from the basic to the creative level. This book is suitable for everyone with basic perspective knowledge and skills.

The book explains the processes of various sketches produced from the same perspective creative settings. The detailed processes of these sketching compositions are animated in demonstration videos (demo videos) which are available at <http://freedrawinglesson.blogspot.com>. Feel free to visit to learn more of this interesting perspective creative setting.
