David Vikram, Aziz Nather, and Kamarul Ariffin Khalid (2005) Role of Ceramics as Bone Graft Substitutes. Bone Grafts And Bone Substitutes: pp. 445-458.

doi: 10.1142/9789812775337_0028

SECTION VII: CERAMICS

Role of Ceramics as Bone Graft Substitutes

David Vikram, Medical Officer
Department of Orthopaedic Surgery, National University Hospital, 5 Lower Kent Ridge Road, Singapore 119074, Singapore

Aziz Nather, Associate Professor
Department of Orthopaedic Surgery, National University of Singapore, 10 Kent Ridge Crescent, Singapore 119260, Singapore

Kamarul Ariffin Khalid, Lecturer
Department of Orthopaedic Surgery, International Islamic University of Malaysia, Kuantan, Malaysia

The following sections are included:

- Introduction
 - Classification of Bioceramics
- Properties
 - Biodegradation
 - Applications and Drawbacks of Ceramics
- Types of Ceramics
 - Calcium Phosphate Ceramics
 - Calcium Sulfate Ceramics
 - Bioglass
- References

ISBN: 978-981-277-533-7 (ebook - Institutions Only)
