Contents

Preface	i
1 EXACTLY SOLVED MODEL:ISING MODEL	1
1.1 Cayley Tree	1
1.2 Ising Model with Four Competing Interactions.	3
1.2.1 The functional equation	6
1.2.2 Translation-invariant Gibbs measures: phase transition	9
1.2.3 Periodic Gibbs Measures	11
1.2.4 Non periodic Gibbs measures	14
1.3 Phase Diagram for Some Special Cases	16
1.3.1 Absence of External Magnetic Field.	16
1.3.2 Absence of External Magnetic Field and Second Neighbor Interaction.	18
1.3.3 Absence of External Magnetic Field and Ternary Interaction.	19
2 EXACTLY SOLVED MODEL:POTTS MODEL	20
2.1 Introduction	20
2.2 The Potts model on Z^d with countable set of spin values	22
2.2.1 The Poisson Gibbs Measures	22
2.3 The Potts model with countable set of spin values on a Cayley tree	27
2.3.1 Introduction	27
2.3.2 An infinite system of functional equations	29
2.3.3 Translation-invariant solutions	32
2.3.4 When for the Poisson measure exist limiting Gibbs measure?	35
2.4 Three States Potts model with competing interactions on the Cayley Tree	36
2.4.1 Model	36
2.4.2 The recurrent equations for the partition functions and Gibbs measures	37
2.4.3 Ground states of the model	42
2.4.4 Phase transition	48
2.4.5 A formula of the free energy	53
2.4.6 Discussion of results	56
3 NON-EXACTLY SOLVED MODEL: DYNAMICAL SYSTEMS APPROACH.	58
3.1 Phase diagram of the three states Potts model with nearest neighbor interactions on Cayley Tree	58

3.1.1	Model and Methods	59
3.1.2	The Phase Diagram	62
3.2	Modulated Phase of a Potts Model with Competing Binary Interactions on a Cayley Tree	66
3.2.1	Model and Methods	66
3.2.2	Morphology of the Phase Diagram	71
4	NON-EXACTLY SOLVED MODEL: CONTOUR METHOD	75
4.1	Introduction	75
4.2	Phase Diagrams of Multi-components Lattice models	76
4.2.1	Basic Setting for $1.1q$ -Components Model	76
4.2.2	2-Components Model	77
4.2.3	3-Components Model	80
4.3	Three state Potts model with competing interactions on a semi-infinite Cayley tree	84
4.3.1	Model and Gibbs measures	84
4.3.2	Contours	85
A.	APPENDIX	96
A.1	Recurrent equations at $J_p \neq 0$	96
A.2	Proof of the consistency condition	98
B.	APPENDIX	100
B.1	Fortran Program	100
C.	APPENDIX	102
C.1	Catalan Number	102
C.1.1	Semi Infinite Cayley Tree	102
C.1.2	Complete Graph	105
Index		107
