PART I GENERAL CONCEPTS AND LEGAL ISSUES 1

1 Rahn Concepts in Saudi Arabia: Formalization and a Registration and Prioritization System 3
   Michael J.T. McMillen
   1.1 Introduction 3
   1.2 The Mortgage Law 4
       1.2.1 General Observations 4
       1.2.2 Specific Provisions 6
   1.3 Conclusion 13
   Notes 13

2 The Shariah Process in Product Development and Approval in ICM 23
   Ahcene Laksasna and M. Kabir Hassan
   2.1 Introduction 23
   2.2 Product Development, Financial Engineering, and Innovation in Islamic Finance 23
       2.2.1 Principles to be Considered in Product Development, Innovation, and Financial Engineering 24
       2.2.2 Area of Product Development, Innovation, and Financial Engineering 25
       2.2.3 Failure of Innovation and Financial Engineering 25
   2.3 The Shariah Framework in Product Development and Approval 26
       2.3.1 Sources of Shariah Law 26
       2.3.2 Maqasid al Shariah 31
       2.3.3 Legal Maxims 33
       2.3.4 Regulators and Standard-Setting Organizations: Regulations, Standards, and Parameters for Islamic Finance (AAOIFI, IFSB, and Others: Shariah Standards, Corporate Governance, and Prudential Regulations) 34
2.4 The Types of Product in Islamic Finance
   2.4.1 Shariah-Based Products
   2.4.2 Shariah-Compliant Products
2.5 Process of Product Development in Shariah-Based Products
   2.5.1 Example of Product Development in Shariah-Based Product: Ijarah Muntahiah Bittamlik (Leasing Ending with Ownership)
2.6 Process of Product Development in Shariah-Compliant Products
2.7 The Framework and Process Flow of Product Approval in Islamic Finance
   2.7.1 The Flow of the Process of Approval of the New Product: From the Product Owner to the Market Place
   2.7.2 Mechanism for Obtaining Rulings
   2.7.3 Position of the IFI with Regard to the Resolutions of SSB and IFSB Principles Governing the SSB
2.8 The Methodology Used in the Approval Process
   2.8.1 The General Rules and Standards Governing the Product Approval in Islamic Finance
   2.8.2 Methodology and Standards of fatwa in Islamic Finance Prior to Issuing a fatwa and Resolutions
   2.8.3 Methodology of fatwa in Islamic Finance in Issuing the Islamic Ruling
   2.8.4 Methodology of Presenting fatwa in Islamic Finance
   2.8.5 Methodology of Empowering the fatwa in Islamic Finance
2.9 Product Approval in Securities in Islamic Capital Markets
   2.9.1 Shariah Criteria for Listed Securities
   2.9.2 Primary Activities Criteria
   2.9.3 The Product Approval of Securities in Mixed Companies
   2.9.4 Image as Criteria for Listed Securities
   2.9.5 Quantitative and Qualitative Approach in Screening Process in Capital Market
   2.9.6 Image with Benchmark
   2.9.7 Image without Benchmark
   2.9.8 Fundamentals of Shariah Assessment on Image Analysis
   2.9.9 Relationship of Image and Principle of Shariah
2.10 Applying the Shariah Advisory Council Methodology
   2.10.1 Case 1: Wawasan Holding
   2.10.2 Case 2: Gemada Berhad
2.11 Other Methodology of Shariah Screening Process for Securities
   2.11.1 FTSE Shariah Index Screening Methodology
   2.11.2 Yasaar Shariah Index Screening Methodology
   2.11.3 DJIM Shariah Screening Process
2.12 Conclusion

Index
4.1 INTRODUCTION

With the growing global awareness of Islamic banking and finance products and the need to explore alternative modes of investment and securities, the Islamic capital market now commands increasing global attention in both developed and developing countries across the world. The recent global financial meltdown has led the stakeholders in global finance to other alternative modes which may contribute to global financial stability. The world has come to understand and appreciate the significance of Islamic finance in the global financial system. Therefore, the Islamic capital market is a significant option to financial products and services in the modern international markets (Ali, 2008).

This recognition has encouraged the steady growth of new products as well as efforts at development and promotion. The establishment of the Dow Jones Islamic Market Index and the FTSE Global Islamic Index Series is testimony of the international recognition of the tremendous potential represented by the Islamic capital market. Islamic bonds were first issued successfully in 1983 by the Malaysian Government when the Government Investment Issue or GII (formerly known as the Government Investment Certificate or GIC) was issued (OICU-IOSCO, 2004).

The expansion of Islamic banking and financial services has opened more vistas for further research in the legal framework regulating the products emanating from the sector. The tremendous growth in the global share index of Islamic bonds (sukuk) may invariably trigger an increase in the number of disputes within the industry. This chapter examines the need for an appropriate legal framework for resolving disputes that may arise among the market participants. Disputes usually arise among operators and investors, investors and the commission, operators and the commission, and even among the investors themselves.

Due to the unique nature of the Islamic capital market, the legal framework must include both the dispute resolution aspect as well as the dispute avoidance mechanism to regulate the matrixes of the financial products in the market. This research focuses on the Islamic capital market in Malaysia which is a pioneering model in the modern world. It is argued that the regulatory matrix must totally comply with the Shariah principles especially issues of dispute avoidance and resolution. In the light of the spirit of the Capital Market and Services Act 2007...
