# Management In Construction Research Association (MiCRA)

## Postgraduate Conference

5th - 6th December 2012 , UTM Kuala Lumpur

Management in construction and engineering has never been more important!

The global economic crisis, a slow down in demand for construction and infrastructure projects in many parts of the world,

the challenges of climate change and general political turbulence, demands more effective project, and commercial management in planning, design, engineering, construction and asset management generally.
