Dear Tan Sri Prof. Dr.,

Recently the Kulliyah of Science of IIUM, has established *Islamization & Integration of Human Knowledge Initiative*, which is designed to suggest methods and mechanisms of imbedding Islamic inputs in the Kulliyah's academic courses and programs. To realize this goal the initiative is planning to conduct series of academic activities throughout the year. On 3rd July 2013, the initiative intends to organize its first Workshop on Islamization and Integration of Human Knowledge. The aim of the this workshop is to address certain conceptual issues related to IOHK and natural science, as well as to introduce Islamic revealed knowledge disciplines to the academicians of science based subjects.

Therefore, I would like to invite you to be one of the plenary speakers for the above mentioned workshop. I would also like to mention that the organizing committee has suggested the following topic for your presentation:
