WELCOME TO THE UIA/PHG 2013 ANNUAL HEALTHCARE FORUM + GUPHA MEETING AT IIDEX CANADA

Architecture Canada | RAIC will be presenting the 2013 International Union of Architects Public Health Group (UIA/PHG) Forum and Global University Programs in Healthcare Architecture (GUPHA) Meeting at IIDEX 2013, September 24-28, 2013 in Toronto. This collaboration between the three groups plus IDC, the Interior Designers of Canada and IIDEX enables the knowledge sharing of international perspectives on health and the design of the care environment plus the role that health care quality and innovation plays in these projects to support better health care. Whether your specialty is hospitals, long-term

care, community health, wellness, rehabilitation or mental health, the UIA/PHG 2013 Forum brings together the best and brightest practitioners from around the globe to share their insights.

This year's theme, "get better! The pursuit of better health and better healthcare design at lower per capita costs: an international perspective" will be explored in a wide range of in-depth seminars during the two days of IIDEX, September 26-27. The forum will also include networking events, cocktail receptions, dinners, site tours and student programming.

HOST ORGANIZATIONS

ARCHITECTURE CANADA | RAIC

The RAIC is a voluntary national association established in 1907 as the voice for architecture and its practice in Canada. Representing more than 4,300 members, its mission is:

- To affirm that architecture matters;
- To celebrate the richness and diversity of architecture in Canada; and
- To support architects in achieving excellence.

INTERNATIONAL UNION OF ARCHITECTS PUBLIC HEALTH GROUP (UIA/PHG)

The International Union of Architects (UIA), is a non-governmental organization, with a goal to unite architects worldwide. The UIA currently represents close to 1,300,000 architects in over 124 countries across the globe since it was founded in 1948. The UIA/PHG is the Public Health Group section of the UIA.

GLOBAL UNIVERSITY PROGRAMS IN HEALTHCARE ARCHITECTURE (GUPHA)

The Global University Programs in Healthcare Architecture is a network of interdisciplinary individuals, professionals, universities, Schools of Architecture, “Architecture for Health” firms, interior design firms, engineering firms, hospital and health care administrators and related disciplines coming together to exchange the latest needs, innovations, and ideas related toward improving the relationship between health and the natural and built environment.

AIA ACADEMY OF ARCHITECTURE FOR HEALTH (AAH)

The AIA has been the leading professional membership association for licensed architects, emerging professionals, and allied partners since 1857. The AIA Academy of Architecture for Health (AAH) mission is to improve both the quality of healthcare design and the design of healthy communities by developing and documenting knowledge; educating design practitioners; advancing the practice of architecture; and affiliating and advocating with others that share these priorities.

INTERIOR DESIGNERS OF CANADA (IDC)

The Interior Designer of Canada (IDC) is the National Advocacy organization for interior designers in Canada representing over 3,500 interior designers. IDC’s mandate is to advance the profession of interior design across Canada as well as internationally. It does so through advocacy with government and the public, and by providing continuing education opportunities and business practice support to members. IDC owns IDEX, the only major design exposition owned by a professional association.

IDEX CANADA

As Canada’s largest National Design + Architecture Expo and Conference, IDEX Canada brings together over 15,000 interior designers, architects, facility managers, real estate and business executives in a national forum which powers the design industry in Canada. During two action packed days in September, IDEX Canada’s 350 exhibitors showcase hundreds of innovative products and services, from all areas of design – workplace, hospitality, retail, healthcare, lighting and sustainable design, while our CEU accredited international conference program ensures attendees receive expert advice on the issues shaping this rapidly changing industry. IDEX also offers numerous opportunities to network, through receptions, award ceremonies and tours.
