INTRODUCTION TO STUDY GUIDE

This Study Guide is intended for Open University Malaysia's **HBEC4203 Assessment in Early Childhood Education** course. It comes in TWO parts, as described below:

Part One comprises the **Course Introduction**, which gives you an overview of the course. More specifically, it provides you with the course synopsis, objectives, learning outcomes and study load. There is a brief description of the main textbook(s), which you must read to fulfil the course requirements. There is also a list of additional reading references. You are encouraged to go into myVLE to check out the assessment, assignment and final examination formats.

Part Two comprises the **Learning Guide**. This starts with an overview, a recommended weekly study schedule to guide your learning process and a brief description of the various elements in the Learning Guide. There is also a list of topics to be covered. For each topic, you are given the specific learning outcomes, a topic overview and a listing of the focus areas, together with assigned readings and the pages where information on the focus areas is found. To consolidate your learning and test your understanding, a summary of the main content covered and study questions are provided at the end of each topic.

Finally, there are two appendices, **Learning Support** and **Study Tips**, to help you walk through the course successfully.

Please read through this Study Guide before you commence your course. We wish you a pleasant study experience.

Contents

Part One: Course Introduction	5
Synopsis	5
Objectives	5
Learning Outcomes	6
Study Load.....	6
Main Textbook(s)	6
Additional Recommended Readings.....	7
Assessment	7
Part Two: Learning Guide.....	9
Overview.....	9
Topic 1	11
Topic 2	14
Topic 3	19
Topic 4	31
Topic 5	35
Topic 6	39
Topic 7	43
Topic 8	52
Topic 9	56
Topic 10	59
Appendices	65
Appendix A: Learning Support	65
Appendix B: Study Tips	66
