About the Conference

AcE-Bs2014Seoul, S. Korea

"Environmental Settings in the Era of Urban Regeneration"

Modern cities are expanding, deteriorating and renewing all the time. New developments in residential and commercial sector contributed to the enhancement of quality of life, but often neglected existing urban context by sweeping away the existing environment and creating brand new ones. Urban regeneration is emerging as a new paradigm to respect urban context and cultural assets. For example, abandoned industrial facilities are transformed into galleries or museums acting as a catalyst for urban revitalisation. Human behaviour under those settings becomes more and more important.

AcE-Bs2014Seoul invites both conceptual and empirical papers which address environmental and behavioural issues and solutions regarding urban regeneration around the world, in relation to the following environments (though not exhaustive):-

Children's Environment; Construction Environment; Climate Change & Energy Environment; Community Environment; Disabled/Inclusive Environment; Educational & Learning Environment; Elderly Environment; Healthcare / Healing Environment; Hospitality / Recreational / Tourism Environment; Legal Matters; Local Heritage Environment; Natural Environment; Residential Environment; Commercial, Retail, & Services Environment; Rural Environment; Technology-related Environment; Urban Environment; Workplace Environment, etc.

Ranjith Dayaratne, Asst. Prof., Dr.

Ranjith Dayaratne currently works as an Archt. Professor at the Department of Civil Engineering and Architecture at the University of Bahrain. He is a Fellow of the Sri Lanka Institute of Architects and a member of the Society of Commonwealth Fellows, UK. He has previously been a Visiting Professor (2009), and a Senior Lecturer (1992-2000) in Architecture at the University of Moratuwa, Sri Lanka, a Visiting Lecturer (1995-2000) at the Colombo School of Architecture, and a Visiting Research Fellow (2005) at the University of Melbourne, Australia.

He studied architecture at the University of Moratuwa, Sri Lanka, Environmental Psychology at the University of Surrey, UK. and earned his PhD from the University of Newcastle, UK. He has RIBA II and has been in active practice while teaching which began as a Teaching Assistant at the University of Newcastle, UK in 1991-1992.

He has presented academic papers at international conferences across disciplinary boundaries and has published in academic architecture journals, professional magazines, edited books as well as UN working papers; from vernacular architecture to leisure places, and from architectural theory to migrant places. He was the main contributor on Sri Lanka to the Encyclopedia of Vernacular Architecture of the World, edited by Prof. Paul Oliver and published by Blackwell. He was the Founder Chairman of the Board of Architectural Publications (BAP) of the Sri Lanka Institute of Architects (SLIA, 1995-2000) which publishes 'The Architect'. He was the Founder Editor of 'Forum', a students' research publication at the University of Newcastle, UK (1990-1992). He founded and edited the internationally refereed journal 'Built-environment-Sri Lanka' published by the SLIA. Since 2011, he has been the editor of the 'ISVS e journal' published by the International Society for the Study of Vernacular Settlements (ISVS).

He bridges theory and design through environment-behavior research using a phenomenological approach. His main interest is in the idea of 'place' and how environment-behaviour research can contribute to architecture as place making. His PhD explored the ideas of 'home' and 'place' in the context of informal settlements and constructed a view of place-making that can be applied to mainstream practice. His academic expertise includes Socially-Conscious Design, Theories of Architecture, Housing, and Social and Behavioral Implications of Design. One of his students from Australia won the RIBA Gold medal for the Best PhD thesis in 2012, while another student from Bahrain won the RIBA Gold medal for the best Master's thesis in Architecture in 2013.

International journals - *ajE-Bs* and *jABs*

Both *ajE-Bs* (Asian Journal of Environment-Behaviour Studies) and *jABs* (Journal of ASIAN Behavioural Studies) published by cE-Bs and UiTM Press Malaysia are international and interdisciplinary journals that publicises research findings pertaining to the interrelationship between **human spatial behaviour and the environment** (built and natural) and general human behaviour respectively, specifically affecting Asian communities living in Asia and non-Asian countries. Related empirical research that involved other communities shall also be considered for publications.

Articles for publications are sourced from selected double-blind internationally peer-reviewed papers presented at the 4 serial annual international conferences – the *AicQoL* (AMER International Conference on Quality of Life) to be held in ASEAN countries, the *AcE-Bs* (ASIAN Conference on Environment-Behaviour Studies) to be held in any Asian countries, the *AicE-Bs* (Asia / Pacific International Conference on Environment-Behaviour Studies) to be held in non-Asian countries, and the *AQoL* (ABRA International Conference on Quality of Life) to be held in Turkey. As of 2013, both the journals shall be published every 2 months. Both the journals are currently being indexed in *MyJurnal*, the Malaysian Journal Management system. Those shall be sent to SCOPUS for evaluation in 2014.

Editorial Board meetings of both journals are normally held four times in a year in conjunction with the *AicQoL*, *AcE-Bs*, *AicE-Bs* and *AQoL* conferences. The main purpose of the meeting cum workshop is to select conference papers for possible publications in the journals, and for the selection of the Best Paper awards. To date, Editorial Board members comprised of 70 distinguished academicians worldwide from 23 countries namely, Australia, Bahrain, Cyprus, Egypt, Germany, Hong Kong, India, Indonesia, Iran, Malaysia, Nigeria, Japan, S. Korea, North Cyprus, Qatar, Saudi Arabia, Spain, Taiwan, Thailand, Turkey, United Arab Emirates, United Kingdom and United States of America.

International Organisations

AMER

Association of Malaysian Environment-Behaviour Researchers

AMER was formally registered in Malaysia on 27th January 2012. The establishment of AMER (ABRA^{malaysia}), the membership of which is also opened to non-Malaysians, was to meet amongst others the following objectives:-

- 1) To represent Malaysia as the nation's official NGO on matters pertaining to the research and consultancy works that involve all Environment-Behaviour studies (EBS).
- 2) To widen networking and co-operation in the field of EBS with institutions, establishments and universities both nationally and internationally.
- 3) To create the nation's database in identifying, registering, administering and coordinating Malaysian researchers involved in the research and consultancy works that involve EBS
- 4) To be the nation's hub and source of reference in all matters pertaining to EBS
- 5) To organize nationally and collaborate internationally, dialogues / seminars / conferences in EBS
- 6) To obtain and distribute research grants to registered members.
- 7) To conduct research and consultancy works that involves all EBS
- 8) To provide expert services in all matters pertaining to EBS
- 9) To highlight local/international events /conferences to registered members for their participation.
- 10) To disseminate research findings and knowledge gathered in the field of EBS in the form of published materials and also electronically.
- 11) To produce future researchers who shall be experts and competent in all matters pertaining to EBS.

ABRA

Association of Behavioural Researchers on Asians (worldwide)

Upon tremendous responses shown by researchers involving behavioural studies on Asians living in both Asian and non-Asian countries presented during the AcE-Bs / AicE-Bs conferences held since 2009, the formation of ABRA, an international organisation was considered necessary and timely.

To propel further internationalisation, the cE-Bs had during AicE-Bs 2010 Kuching, Malaysia, 7-9 December 2010 mooted the idea for the formation of an international organisation, ABRA (Association of Behavioural Researchers on Asians). Following the recent successful registration of AMER,, and further interest expressed by representatives from several countries during the recent AcE-Bs 2012 Bangkok, a formal meeting amongst ABRA representatives was held during AicQoL2013Langkawi. Efforts to formalize registrationn in Malaysia shall be done in 2014.

ABRA is now represented in 8 countries worldwide namely, Cyprus, Egypt, India, Indonesia, Iran, Malaysia (ABRA headquarters), Taiwan, and Turkey. One benefit in becoming an ABRA member is the huge discount given to members who attend forthcoming activities to be organized. The discount given to members would more than pay back members' annual fees
