A vibrant red starburst shape, resembling a stylized explosion or a star, is centered on a white background. The starburst has multiple sharp points of varying lengths, creating a dynamic and energetic appearance. Inside the starburst, the words "Paradigm Shift" are written in a bold, white, sans-serif font. The text is arranged in two lines, with "Paradigm" on the top line and "Shift" on the bottom line, both slightly angled to follow the curve of the starburst. The overall effect is one of significant impact and transformation.

Soooooooooooo,

THE WORLD IS BIGGER THAN FIVE

United States, United Kingdom, Russia, France, And China. These five victors of II. World War are the five permanent members of the Security Council. In the United Nations, the principal organ responsible for maintaining international peace & security. They have the power to veto and quash any matter with their negative vote, irrespective of the international support the matter has. This power of veto has been used in accordance with the nation's

Interests of these five members, while almost all of these decisions shaped the destiny of the rest of world. This undemocratic privilege remains to be a serious obstacle in establishing a democratic & just world. In order to increase the legitimacy of the UNSC and to provide accountability, good governance and fair representation, it is time to say: **The world is bigger than five.**
