40.	Tafsīr 'Ilmī (Sains) Dalam Tafsir Al-Azhar Karangan Hamka: Satu Analisa -Wan Helmy Shahriman Wan Ahmad, Dan Sharifah Norshah Bani Syed Bidin	421

Synopsys

## FORWARD

The revelation (the Qur'an and Sunnah) and the creation (al-kawn) are both sources for man to identify, understand, and confirm the Message of Allah, the Creator, the Sustainer, the Cherisher, the Provider, the Controller of the universe. The revelation is accurately available in words; and the creation exists in precise form. There is no conflict between the revelation and creation; they are both rather complementary to each other. There should not be even an iota of doubt that the Qur'an and Sunnah invite man to read the Nature with a view to developing science which in turn must reconfirm the authenticity and sanctity of the Message handed over to man through the Last Prophet (s.a.w.).

It was out of this fact that the Department of Qur'an and Sunnah Studies, Kulliyyah of IRK & HS, IIUM mooted the idea of inviting learned scholars, specialists, and experts in both Islamic Studies and Natural Sciences to share and exchange views on multi-dimensional link between the Revelation and the Creation from a platform of International Conference. The response from various quarters of intelligentsia was quite overwhelming. Out of so many English and Malay papers on the Conference theme some were very interesting and enlightening. These extraordinarily informative researches deserve preservation in the form of intellectually memorable volume.

The commitment of the Department of Qur'an and Sunnah Studies, IIUM espoused by the Saudi Scientific Society for the Holy Qur'an and its Sciences (*Tybian*), Al-Qaradawi Center for Islamic Moderation and Renewal, Qatar Faculty of Islamic Studies, Hamad Bin Khalifa University affirms that the elaborate and conscious study of the Qur'ān and Sunnah will ensure ever-relevance of Islam to the revolutionary growth pace of Science and Technology.

I hope and pray that this volume proves academically significant for both intellectuals and commoners. I would like to thank all those who selflessly devoted their time and energy to this intellectual task. May Allah equip them all with more insights and renewed vigor to serve Islam better in the modern scientific age!

Sincerely,  
Chief Editor & Conference Director (ICQS2),  
Dr. Esam Eltigani
