Contents

	<i>Preface</i>	xi
Chapter 1	Research in Islamic Perspective	1
	Introduction	1
	Knowledge and Its Source as Revealed by Quran	2
	Means of Acquiring Knowledge in Islam	3
	Development of All Branches of Islam	4
	The Concept of Scepticism and Knowledge	5
	Quranic verses and Hadith about Knowledge	6
	Selected Sayings of the Prophet (SAW)	13
	Concerning Knowledge (<i>ilm</i>)	
	Absolute Truth in the Light of Islam	18
	Conclusion	21
Chapter 2	Fundamentals of Research	22
	Introduction	22
	What is Research and What is Not Research?	23
	Definitions of Research	24
	Types of Research	25
	Comparison of Inverse Research Types	27
	Research Process	30
	Problem Identifications	33
	Literature Review Objectives	36
	Problem Formulation	37
	Research Methodologies, Designs and Methods	37
	Answering Research Questions and Accepting or	
	Rejecting Hypotheses	38
	Interpretations of Results	40
	Writing Thesis or Dissertations	40
	Thesis Defence	41
	Conclusion	43

Contents

Chapter 3	Literature Review and Its Role in Research	44
	Introduction	44
	Finding the Gap in Research	44
	Defining the Research Problem	45
	Prominent Researches in the Area	46
	Justification of Proposed Study	46
	Framing the Research Process	46
	Formulating Research Problem Statement	47
	Problem Statement Examples	48
	Research Question Types and Classifications	49
	Hypotheses, Law and Theory	62
	Operationalization and Levels of Measurements	67
	Research Aim, Objective and Their Development	70
	Conclusion	71
Chapter 4	Research Designs	73
	Introduction	73
	Research Design Classification	74
	Quantitative Research Designs	92
	Qualitative Research Designs	96
	Mixed Methods Designs	100
	Criteria to Choose Research Designs	101
	Research Design vs. Research Methods	101
	Conclusion	103
Chapter 5	Data Types, Measurements and Analysis Methods	104
	Introduction	104
	Data Types and Sources	104
	Data Types and Measurement Scales	106
	Qualitative and Quantitative Data Analysis	110
	Variable Types	113
	Data Analysis Explained	114
	Qualitative Data Analysis	115
	Quantitative Data Analysis	117
	Conclusion	119

Contents

Chapter 6	Data Collection Methods	120
	Introduction	120
	Primary and Secondary Data	121
	Quantitative Data Collection Methods	122
	Qualitative Data Collection Methods	126
	Strengths and Weaknesses of Quantitative Data Collection Methods	132
	Conclusions	134
Chapter 7	Sampling Methods	136
	Introduction	136
	Definition of Terms	137
	Sampling Strategy	137
	Sample Selection Goals	143
	Types of Sampling	144
	Sampling Frame	153
	Choosing a Correct Sampling Method	153
	Conclusion	155
Chapter 8	Quantitative and Qualitative Research Methodologies	156
	Introduction	156
	Research Philosophies	158
	Choosing Appropriate Research Methodologies and Methods	166
	Qualitative Research Methodologies	166
	Quantitative research Methodologies	169
	Qualitative and Quantitative Approaches to Social Research	173
	Quantitative and Qualitative Approaches: Which to Choose?	175
	Combined Quantitative / Qualitative Approaches	176
	Conclusion	177

Contents

Chapter 9	Case Studies as Research Methodology	179
	Introduction	176
	What is a Case Study	180
	Case Studies versus Other Research Methodologies	181
	Categories of Case Studies	183
	Case Studies as Research Methodologies	189
	Traditional Criticisms of the Case Study	191
	An Epistemological Basis for the Case Study	192
	Factors to be Taken into Account when Designing a Case Study	193
	Types of Validity and Reliabilities	194
	Strengths of Case Studies	196
	Limitations of Case Studies	196
	Case Study as a Process	197
	Case Studies: Issue of Validity, Reliability and Generalizability	200
	Conclusion	204
Chapter 10	Action Research Methodology	206
	Introduction	206
	Theoretical Foundation of Action Research	208
	Action Research Cycle	209
	Current Types of Action Research	201
	Categories of Action Research	211
	Action Research Process	215
	Advantages of AR	218
	Disadvantages of AR	221
	Action Research and Design Science Research	222
	Goals of Action Research and Quality Validity Criteria	223
	Scope of AR Methodology	224
	Ethical Considerations in AR	226
	Action Research: When is it Used?	227
	What are the Key Features of Action Research	227
	Conclusion	228

Contents

Chapter 11	Simulation as a Research Methodology	229
	Introduction	229
	Definition	229
	Modelling	230
	Simulation Types	230
	Discrete Event Simulation Software	231
	Conditions for Simulating a Phenomenon	235
	The Power of Simulation	235
	Problem Solving and Decision Making with Simulation Software	237
	General Purpose Software	238
	Comparison of Simulation Packages with Programming Languages	242
	Conclusion	243
	<i>Index</i>	245
