

**POSTER PRESENTATIONS DAY 1**  
**8<sup>th</sup> December 2015**

POSTER NO	PRESENTER AND POSTER TITLES AGRICULTURAL MICROBIOLOGY	PAGE
AG01	<p><i>Abdul Munir Abdul Murad, Irene Liza Isaac, Idris Abu Seman, Mohammad Faizal Abu Bakar and Farah Diba Abu Bakar</i></p> <p><b>Transcriptome profiling of <i>Ganoderma boninense</i> monokaryons and dikaryons: identification of pathogenicity related genes</b></p>	43
AG02	<p><i>Abdulaziz Bashir Kutawa, Kamaruzaman Sijam and Khairulmazmi Ahmad</i></p> <p><b>Characterisation and pathogenicity of fungal pathogens responsible for causing leaf blight diseases of corn in malaysia</b></p>	44
AG03	<p><i>Adamu Saidu Paiko, Kamaruzaman B Sijam, Khairulmazmi B Ahmad and Mohd Sayeed Akhtar</i></p> <p><b>Diseases severity assessment of lesion nematode (<i>Pratylenchus</i> spp) on banana (<i>Musa</i> spp) in Peninsular Malaysia</b></p>	45
AG04	<p><i>Adlin Azlina Abdul Kadir, Noriha Mat Amin, Suria Mohd Saad, Norhafniza Awaludin, Siti Akhtar Mohsim, Erna Mutiara Masdek, Zamri Ishak and Chan Chee Wan</i></p> <p><b>Preliminary study on the production of polyclonal antibody against lipopolysaccharide (LPS) and pure culture of <i>Erwinia mallotivora</i> for the detection of dieback disease in papaya</b></p>	46
AG05	<p><i>Ahmad Syazwan Samsuddin, Mohd Farid Ahmad, Wan Muhd Azrul Wan Azhar, Mohd Salleh Sanusi and Patahayah Mansor</i></p> <p><b>Genetic diversity and compatibility between brown rot fungus <i>Phelinus noxius</i> from different places in Peninsular Malaysia</b></p>	47
AG06	<p><i>Aizat Shamin Noran, Nor Afiqah Maiden, Mohd Adi Faiz Ahmad Fauzi and Safiah Atan</i></p> <p><b>Fungicidal effect of nitrogen-fixing, phosphate-solubilising and potassium-solubilising microorganisms on <i>Rigidoporus microporus</i></b></p>	48

<b>AG07</b>	<i>Amin Asyraf Tamizi, Rogayah Sekeli, Rafidah Badrun, Sew Yun Shin, Rohaiza Ahmad Redzuan and Nazrul Hisham Nazaruddin</i>	49
	<b>Utilisation of <i>Agrobacterium tumefaciens</i> and <i>Escherichia coli</i> in the development of transgenic drought-tolerant fragrant rice</b>	
<b>AG08</b>	<i>Arild Ranlym Arifin, Tegar Nurwahyu Wijaya, Seto Adityo, Maria Sugiharti and Antonius Suwanto</i>	50
	<b>Preliminary study on soil metagenomes in oil palm plantations</b>	
<b>AG09</b>	<i>Arthy Surendran and Yasmeen Siddiqui</i>	51
	<b>The effect of phenolic compounds on the growth and lignolytic enzyme production of <i>Ganoderma boninense</i> a casual pathogen for Basal Stem Rot disease (BSR)</b>	
<b>AG10</b>	<i>Azima Azmi, Siti Noraini Bunawan, Salmah Abdul Aziz, Nor Suzaida Mohamad Nor and Zamri Ishak</i>	52
	<b>Optimisation of bioassay using various concentrations of dehydrogenases enzyme from <i>Bacillus</i> sp. for the detection of dithiocarbamate residues</b>	
<b>AG11</b>	<i>Azlan Azizi Muhamad Nor, Mohamad Roff Mohd Noor, Rozeita Laboh, Raziyah Abdullah and Nur Sulastri Jaffar</i>	53
	<b>Screening of <i>Streptomyces</i> spp. antagonistic activity for biological control against <i>Fusarium</i> wilt disease of banana</b>	
<b>AG12</b>	<i>Farah Amira Md Paudzai, Mohd Termizi Yusof, Amalia Mohd Hashim, Siti Nor Akmar Abdullah and Shamala Sundram</i>	54
	<b>Induced systemic resistance of endophytic <i>Trichoderma</i> in oil palm</b>	
<b>AG13</b>	<i>Farah Huda Sjaifni Suherman, Nur Adliza Baharom, Siti Sakinah Abdullah and Maizatul Ilyana Rosli</i>	55
	<b>Variation in morphology among local isolates of <i>Metarhizium anisopliae</i></b>	

<b>AG14</b>	<u>Ha Kwan Yun, Tan Yee Shin, Vikineswary Sabaratnam and Subha Bhassu</u>	56
	<b>Intraspecific mating of <i>Pleurotus giganteus</i> (Berk.) Karunarathna &amp; K.D. Hyde and cultivation of the hybrids</b>	
<b>AG15</b>	<u>Hazirah Mohd Din, Khairulmazmi Ahmad and Kamaruzaman Sijam</u>	57
	<b>Phenotypic assessment of parental lines of cucumber against <i>Fusarium</i> wilt disease pathogen</b>	
<b>AG16</b>	<u>Johari Sarip, Salehudin Md. Radzuan, Nor Faimah Ghazali and Noraisah Rahmat</u>	58
	<b>VIORICA: A papaya highly tolerant variety to dieback disease</b>	
<b>AG17</b>	<u>Joranisah Hamid and Khairulmazmi Ahmad</u>	59
	<b>Suppression of mycelia growth of <i>Fusarium oxysporum</i> f.sp. <i>cucumerinum</i> in vitro by crude garlic extract</b>	
<b>AG18</b>	<u>Kamlesh Golhani, Siva K Balasundram, Ganesan Vadamalai, Biswajeet Pradhan and Sathis Sri Thanarajoo</u>	60
	<b>Comparison between RT-PCR and hyperspectral domains based on sensitivity and specificity of viroid inoculated oil palm seedlings</b>	
<b>AG19</b>	<u>Lee Pei Lee Angel, Mohd Termizi Yusof, Intan Safinar Ismail, Intan Nur Ainni Mohamed Azni and Shamala Sundram</u>	61
	<b>Profiling and identification of antifungal compounds from <i>Trichoderma virens</i></b>	
<b>AG20</b>	<u>Lim Shey Li, Sreeramanan Subramaniam, Zamzuri Ishak and Amir Hamzah Ahmad Ghazali</u>	62
	<b>Interaction of <i>Herbaspirillum seropedicae</i> (Z78) with tissue cultured oil palm materials (<i>Elaeis guineensis</i> Jacq. var Dura)</b>	
<b>AG21</b>	<u>Mohamad Fadzirul Anwar Zainol, Mariatulqabtiah Abdul Razak, Abdul Rahman Omar and Saleha Abdul Aziz</u>	63

<p><b>Characterisation of <i>Campylobacter jejuni</i> isolated from broiler chickens and farm environment in Selangor, Malaysia</b></p>		
<b>AG22</b>	<p><i>Mohd Nazarudin Anuar, Roslee Painudy and Mohd. Shahrir Baharom</i></p> <p><b><i>In vitro</i> evaluation of the nematostatic and ovistatic effect of <i>Aspergillus niger</i> against Root-Knot Nematode, <i>Meloidogyne incognita</i></b></p>	64
<b>AG23</b>	<p><i>Mohd Rashdan Ghazali, Shahridzal Azree Shahrum, Sahilah Abdul Mutalib, Rozida Mohd Khalid, Kamal Wok and Aishah Ahmad</i></p> <p><b>Larger scale decomposition of Empty Fruit Bunches (EFB) and palm oil wastes into organic fertiliser</b></p>	65
<b>AG24</b>	<p><i>Mohd Yusof Nor Rahim, Noriha Mat Amin, Rohaiza Ahmad Redzuan, Adrain Ling Cheng Kuang, Amin Asyraf Tamizi and Hamidun Bunawan</i></p> <p><b>Isolation and identification of quorum quenching bacteria from tomato rhizosphere soil in Malaysia</b></p>	66
<b>AG25</b>	<p><i>Mohd Zafrul Arif Radhi, Tan Geok Hun, Wan Azha Wan Mustapha and Tony Peng Shih Hao</i></p> <p><b>Field evaluation of eksotika II (<i>Carica papaya</i> L.) against <i>Erwinia mallotivora</i> sp., causal agent for papaya dieback in Peninsular Malaysia</b></p>	67
<b>AG26</b>	<p><i>Muhammad Nuruddin, Vikineswary Sabaratnam and Geok Yuan Annie Tan</i></p> <p><b>Characterisation of novel bacteria from rhizosphere of oil palm</b></p>	68
<b>AG27</b>	<p><i>Musliyana Mansor, Siti Aishah Nazaruddin, Nor Umaira Abu Asan and Tan Geok Hun</i></p> <p><b><i>Bacillus methylotrophicus</i>, a plant-growth-promoting bacterium isolated from fertiliser</b></p>	69
<b>AG28</b>	<p><i>Muziana Nazwin Mahyidin, Foo Hooi Ling, Loh Teck Chwen, Norhani Abdullah and Umi Kalsom Md. Shah</i></p> <p><b>Lactic acid bacteria as bioconversion agent for palm kernel cake</b></p>	70

<b>AG29</b>	<u>Neni Kartini Che Mohd Ramli</u> and Mohammad Suhaimi Hassan	71
	<b>Isolation of endophytic bacteria from cocoa plant parts as potential biocontrol agents of cocoa black pod disease</b>	
<b>AG30</b>	<u>Nik Mohd Izham Mohamed Nor</u> and John F. Leslie	72
	<b>Two distinct populations of <i>Fusarium fujikuroi</i> from rice in Malaysia and Thailand</b>	
<b>AG31</b>	<u>Noor Azrieda Abd Rashid</u> , Salmiah Ujang, Baharudin Kamaruddin, Sabri Ahmad and Mohd Izwane Wahed	73
	<b>Potential of wood vinegar as wood repellent obtained from pyrolysis of <i>Rhizophora</i> sp. against sapstain fungi</b>	
<b>AG32</b>	<u>Norhazwani Mokhtar</u> , Yasmeen Siddiqui, Mahiran Basri and Jugah Kadir	74
	<b>Effect of nanoemulsions of <i>Garcinia atroviridis</i> fruit extract on the suppression of <i>Colletotrichum capsici</i></b>	
<b>AG33</b>	<u>Noriha Mat Amin</u> , Mohd Yusof Nor Rahim, Rohaiza Ahmad Redzuan and Amin Asyraf Tamizi	75
	<b>Identification and sequence analysis of acyl homoserine lactonase genes (<i>aihA</i>) from <i>Bacillus thuringiensis</i> strains isolated from different crop rhizosphere in Malaysia</b>	
<b>AG34</b>	<u>Nur Adliza Baharom</u> , Farah Huda Sjafni Suherman, Siti Sakinah Abdullah and Maizatul Ilyana Rosli	76
	<b>Effect of different medium on morphology and growth of <i>Metarrhizium anisopliae</i></b>	
<b>AG35</b>	<u>Nur Qamariah Jonit</u> and Tan Geok Hun	77
	<b>Isolation and characterisation of <i>Xanthomonas oryzae</i> from infected rice</b>	
<b>AG36</b>	<u>Nur Sakinah Ilias</u> and Khairulmazmi Ahmad	78
	<b>Phenotypic assessment of parental lines against downy mildew disease pathogen in cucumber</b>	

<b>AG37</b>	<i>Nur Samahah Mohd Zainual and Tosiah Sadi</i>	79
	<b>Phylogenetic diversity analysis of <i>Trichoderma</i> isolates from Tasik Kenyir</b>	
<b>AG38</b>	<i>Nur Sulastri Jaffar, Kogeethavani Ramachandran, Rozeita Laboh and Mohamad Roff Mohd. Noor</i>	80
	<b>Characterisation of Malaysian isolates of blood disease bacterium from banana through biochemical, molecular and phylogenetic methods</b>	
<b>AG39</b>	<i>Nuraini Mohd Noor and Latiffah Zakaria</i>	81
	<b>Molecular characterisation of <i>Colletotrichum</i> spp. causing anthracnose of chili (<i>Capsicum annum</i>) in Peninsular Malaysia</b>	
<b>AG40</b>	<i>Nurul Ammar Illani Jaafar, Jeffrey Lim Seng Heng and Tosiah Sadi</i>	82
	<b>Antimicrobial activity of Malaysia stingless bee propolis against selected plant pathogens</b>	
<b>AG41</b>	<i>Nurul Shamsinah Mohd Suhaimi, Goh Share Yuan, Noni Ajam, Yasmin Othman, Chan KokGan, Thong Kwai Lin</i>	83
	<b>16S rRNA metagenomics approach revealed the diversity of microbial communities associated with symptomatic and non-symptomatic bacterial wilt diseased banana plant</b>	
<b>AG42</b>	<i>Raja Arief Deli Raja Nasharuddin and Gulam Rusul Rahmat Ali</i>	84
	<b>Risk of <i>Salmonella</i> serovars in eggs and culled layers</b>	
<b>AG43</b>	<i>Rohaiza Ahmad Redzuan, Muhamad Ridzuan Abd Rasid, Hazirah Abdol Wahab, Mohd Yusof Nor Rahim, Noriha Mat Amin, Amin Asyraf Tamizi, Nazrul Hisham Nazaruddin, Rogayah Sekeli and Sew Yun Shin</i>	85
	<b>Identification and isolation of defense related genes in rice during sheath blight early infection</b>	
<b>AG44</b>	<i>Roslindawani Md Nor, Mohd Zamri Saad and Syafiqah Adilah Shahrison</i>	86
	<b>Molecular characterisation of local isolates of <i>Corynebacterium pseudotuberculosis</i> using Random Amplified Polymorphic DNA (RAPD) and</b>	

<b>Enterobacteria Repetitive Intergenic Consensus (ERIC) PCR</b>		
<b>AG45</b>	<u>Santhi Velayutham, Tan Yee Shin and Vikineswary Sabaratnam</u>	87
<b>Linear mycelial growth of <i>Pleurotus ostreatus</i> and its' hybrids</b>		
<b>AG46</b>	<u>Seto Adityo, Arild Ranlym, Maria Sugiharti and Antonius Suwanto</u>	88
<b>Microbe-based fungicide proplant-C (PPC) as biological control toward Ganoderma disease in oil palm</b>		
<b>AG47</b>	<u>Sharifah Farhana Syed Ab Rahman, Kamaruzaman Sijam and Dzolkhifli Omar</u>	89
<b>Antibacterial activity of <i>Piper sarmentosum</i> methanol fruit extract against the rice pathogenic bacteria <i>Pseudomonas fuscovaginae</i></b>		
<b>AG48</b>	<u>Siti Norsuha Misman and Latiffah Zakaria</u>	90
<b>Pathotype identification of <i>Pyricularia oryzae</i> causing rice blast disease in Seberang Perai Utara (SPU) granary area</b>		
<b>AG49</b>	<u>Siti Nur Sarah Shafiei, Khairulmazmi Ahmad and Kamaruzaman Sijam</u>	91
<b>Detection of antimicrobial compounds from <i>Psidium guajava</i> L. by TLC and GC-MS</b>		
<b>AG50</b>	<u>Stella Matthews, Illani Zuraihah Ibrahim, Theeba Manickam, Mohd Masri Saranum and Nurin Izzati Mohd Zulkifli</u>	92
<b>Microbial cell immobilisation technique for bio-based agriculture products</b>		
<b>AG51</b>	<u>Suhaida Salleh, Shari Fuddin Sha'ari and Alias Awang</u>	93
<b><i>In vitro</i> screening of selected fungicides for controlling vascular streak dieback disease of cocoa (<i>Theobroma cacao</i>)</b>		

<b>AG52</b>	<i>Suhanna Ahmad, Nur Atiqah Mohd Khari, Nor Dalila Nor Danial and Mohd Saidi Zakari</i>	94
	<b>Dissemination technique of <i>Trichoderma asperellum</i> by flies in anthracnose disease control on mango</b>	
<b>AG53</b>	<i>Sujjat Al Azad and Rossita Shapawi</i>	95
	<b>Mushroom extract as aquaculture feed additive</b>	
<b>AG54</b>	<i>Syafiqah Adilah Shahridon, Mohd Zamri Saad, Zunita Zakaria and Faez Firdaus Jesse Abdullah</i>	96
	<b>Characterisation and antigenicity of the Outer Membrane Proteins (OMPs) of <i>Corynebacterium pseudotuberculosis</i></b>	
<b>AG55</b>	<i>Tan Geok Hun, Hafizah Alias and Mohd Shukor Nordin</i>	97
	<b>Isolation and identification of <i>Dickeya dadantii</i> from infected pineapple</b>	
<b>AG56</b>	<i>Tan Ying Ju, Izuan Bahtiar Ab. Jalal, Nor Aini Warzukni and Muhamad Ali Hanapiah Ab Manap</i>	98
	<b>Effect of sampling temperature on Total Bacteria Count (TBC) in fresh milk</b>	
<b>AG57</b>	<i>Wahizatul Afzan Azmi, Zaidatul Akma Sulaiman and Siti Nor Khadijah Addis</i>	99
	<b>Evaluation of entomopathogenic fungi against subterranean termites, <i>Globitermes sulphureus</i> (Insecta: Isoptera)</b>	
<b>AG58</b>	<i>Wan Muhammad Azrul Wan Azhar, Mohd Farid Ahmad, Ahmad Said Sajap, Tosiah Saidi, Patahayah Mansor and Ahmad Syazwan Samsudin</i>	100
	<b>Evaluation of germination and virulence of <i>Metarhizium anisopliae</i> in plant oil formulation</b>	
<b>AG59</b>	<i>Yong Su Ting, Zainal Abidin Abdul Rahman, Farahiyah Ilyana Jamaludin, Mardhati Mohammad, Mohd Rosly Shaari and Wong Hee Kum</i>	101
	<b>Performance of Tilapia in a tank cultured system inoculated with nitrifying bacteria</b>	

**AG60**

*Yuvarani Naidu, Abu Seman Idris, Mohd Yusof Rafii,  
Mohd Saud Halimi and Yasmeen Siddiqui*

102

**Lignocellulolytic enzymatic degradation of healthy  
and infected oil palm wood blocks: Utilisation of  
white-rot fungi**

POSTER NO.	PRESENTER AND POSTER TITLES FOOD MICROBIOLOGY	PAGE
FM01	<i>Ainaa Abdul Kahar, Azlina Mansor, Sukirah Abdul Rahman, Dang Lelamurni Abd. Razak, Aminuddin Hussin, Shaiful Adzni Sharifuddin, Muhammad Anas Othaman, Nur Yuhasliza Abd. Rashid, Tan Geok Hun and Kamariah Long</i>  <b>Freeze drying as an alternative preservation technique for indigenous microbes isolated from local fermented vegetable products</b>	103
FM02	<i>Anisah Jamaluddin, Nur Yuhasliza Abd. Rashid, Dang Lelamurni Abd. Razak, Shaiful Adzni Sharifudin and Kamariah Long</i>  <b>Influence of extraction solvent on total phenolic content and antioxidant properties of coconut testa fermented with <i>Rhizopus oryzae</i></b>	104
FM03	<i>Ibrahim Mahmood, Azhar Mohamad, Fauzi Daud, Mohd Shazrul Fazry Sa'ariwijaya, Zaiton Abdul Kadir, Hing Jan Nie, Hisham Hamza Hussain and Wan Safina Wan Abd. Razak</i>  <b>Dose response for <i>Lentinula edodes</i> against acute gamma irradiation</b>	105
FM04	<i>Erkihun Akliu and Hurul Ain Ab Manah</i>  <b>Antimicrobial resistant <i>Staphylococcus aureus</i> detection in raw chicken meat and its public health implications</b>	106
FM05	<i>Hadi Akbar Dahlan and Norrakiah Abdullah Sani</i>  <b>Amino acid profile of palm <i>santan</i> inoculated with <i>Streptococcus thermophilus</i>, <i>Lactobacillus bulgaricus delbrueckii</i> and <i>Lactobacillus acidophilus</i></b>	107
FM06	<i>Hassainain Al-Talib, Mohamed Harreez Suhaimi, Siti Shafika Nabila Rosli, Nurul Huda Othman, Nur Ain Sakinah Mansor, Amira Kartini Sulaiman Shah and Nurul Syuhada Ariffin</i>  <b>Antimicrobial effect of green vegetables against enteric bacteria</b>	108

<b>FM07</b>	<i>Lee Hui Key, Thong Kwai Lin, Hishammuddin Hassan and Chai Lay Ching</i>	109
	<b>Dissemination of <i>Escherichia coli</i> in the kitchen: The role of food handlers</b>	
<b>FM08</b>	<i>Lesley Maurice Bilung, Ernie Suhaiza, Hashimatul Fatma Hashim, Kasing Apun, Pui Chai Fung and Son Radu</i>	110
	<b>Survival of <i>Bacillus cereus</i> in artificially contaminated UHT milk and infant milk</b>	
<b>FM09</b>	<i>Hiu Manvy, Ivan Chiew Kar Mun, and Lim Yin Sze</i>	111
	<b>Effects of supplementation of raw bean flour and resistant starch of adzuki bean on the growth of probiotic <i>Lactobacillus acidophilus</i></b>	
<b>FM10</b>	<i>Mohd Afendy Abdul Talib, Noor Azlina Masdor, Rashid Mat Rani, Suria Mohd Saad, Nor Fazmimi Nor Azeme, Erna Mutiara Masdek and Zamri Ishak</i>	112
	<b>LFIA strip for the detection of <i>Listeria monocytogenes</i></b>	
<b>FM11</b>	<i>Mohd Effendi Mohamed Nor, Nur ilida Mohamad, Nur Baizura Sa'dom and Arif Zaidi Jusoh</i>	113
	<b>Reduction of histamine-producing bacteria in fresh fish using electrolysed oxidising water</b>	
<b>FM12</b>	<i>Mohd Nizam Lani, Nur Hidayah Lokman, Rozila Alias and Zaiton Hassan</i>	114
	<b>Effect of crude supernatant from lactic acid bacteria on microbiological quality of 'otak-otak' before and after grilling</b>	
<b>FM13</b>	<i>Najwa Ulfah Abdul Rahman, Amir Izzwan Zamri and Muhammad Hariz Mohd Hasali</i>	115
	<b>The effect of lactic acid bacteria isolated from stingless bee honey on the physicochemical properties of yogurt</b>	
<b>FM14</b>	<i>Nor Hazwani Mohd Hasali, Fatimah Wansalaeh, Amir Izzwan Zamri, Mohd Nizam Lani, Aidilla Mubarak and Zarizal Suhaili</i>	116

	<b>Antimicrobial activity of kelulut (<i>Trigona</i> spp.) honey and Lactic Acid Bacteria (LAB) isolated from kelulut (<i>Trigona</i> spp.) honey against pathogenic bacteria</b>	
<b>FM15</b>	<i>Nur Afiqah Hunain, Sahar Abbasiliasi, Arbakariya Ariff, Mohd Termizi Yusof, Mohd Yazid Abd Manap and Shuhaimi Mustafa</i>	117
	<b>Effect of starter culture, inulin and yeast addition on fermentation properties in kefir during fermentation</b>	
<b>FM16</b>	<i>Nur Baizura Sodom, Nur Ilida Mohamad, Mohd. Effendi Mohamed Noor and Mohamed Shafit Hussain</i>	118
	<b>Detection and identification of viable food pathogens via PMA - Dot Blot hybridisation</b>	
<b>FM17</b>	<i>Nur Ilida Mohamad, Nur Baizura Sa'dom and Mohd Effendi Mohamed Noor</i>	119
	<b>Reduction of <i>Escherichia coli</i> strains viability on selected vegetables by bacteriophages mixture application</b>	
<b>FM18</b>	<i>Nurhazwani Sukram, Mohamed Shafit Hussain, Nur Ilida Mohamad, Nazarifah Ibrahim and Munirah Abdul Zaman</i>	120
	<b>Preliminary screening of a potential anti-microbial of essential oils from commonly consumed herbs and spices against <i>Salmonella enterica</i></b>	
<b>FM19</b>	<i>Salima Sadeghi, Chai Lay Ching and Thong Kwai Lin</i>	121
	<b>Comparing different protocols for detection and isolation of <i>Vibrio parahaemolyticus</i> in frozen prawns</b>	
<b>FM20</b>	<i>Sharjahan Mohamed Ali, Tan Yee Shin, Jegadeesh Raman, Hariprasath Lakshmanan, Ling Tau Chuan, Sekaran Muniandy and Vikineswary Sabaratnam</i>	122
	<b>Nanoparticles from mushroom extract as fibrinolytic agents</b>	
<b>FM21</b>	<i>Shuhaila Sharif, Kamarul Azlan Azizan, Azira Muhamad and Syarul Nataqain Baharum</i>	123

	<b>Application of NMR-based metabolomics for intracellular amino acids production in <i>Lactococcus lactis</i> subsp. <i>cremoris</i> MG1363.</b>	
<b>FM22</b>	<i>Nurul Asilah Baharudin, <u>Sim Kae Shin</u> and Tan Yee Shin</i>	124
	<b>Influence of cooking methods on antioxidant activities and total phenolic content of selected edible mushrooms</b>	
<b>FM23</b>	<i>Asha Devi Jaiyaraman, <u>Siti Hasmah Mohtar</u> and Rozila Alias</i>	125
	<b>Screening and isolation of bacteria associated with foodborne illness in canned mushroom</b>	
<b>FM24</b>	<i><u>Tan Hui Yin</u> and Loke Chui Fung</i>	126
	<b>Probiotic potential of lactic acid bacteria isolated from <i>tapai</i></b>	
<b>FM25</b>	<i>Chang Lin June, Chai Lay Ching and <u>Tan Yee Shin</u></i>	127
	<b>The microbial risk assessment of dried edible mushrooms</b>	
<b>FM26</b>	<i><u>Thiang Ee Lean</u>, Lee Choon Weng, Rafida Ismail, Chai Lay Ching and Bong Chui Wei</i>	128
	<b>Detection of selected antibiotic residues in Malaysia marine farmed seafood</b>	
<b>FM27</b>	<i><u>Wardah Abdul Rahman</u>, Latiffah Zakaria and Baharuddin Salleh</i>	129
	<b>Identification of <i>Aspergillus niger</i> and <i>A. tubingensis</i> from stored products through morphological and molecular approaches</b>	
<b>FM28</b>	<i><u>Yeoh Wei Keat</u>, Asgar Ali and Sivakumar Manickam</i>	130
	<b>Effect of ultrasound on the natural microflora of fresh-cut pineapple</b>	

POSTER NO.	PRESENTER AND POSTER TITLES INDUSTRIAL MICROBIOLOGY	PAGE
IM01	<i>Azlina Mansor, Nur Yuhasliza Abd. Rashid, Shaiful Adzni Sharifudin and Kamariah Long</i>  Enhancement of mass production of probiotic lactic acid bacteria using low cost substrate	131
IM02	<i>Onn Kei Chan, Lee Quen Phoo and Lisa Gaik Ai Ong</i>  Isolation of extracellular phytase producing bacteria and production of phytase using solid-state fermentation	132
IM03	<i>Ennry Esut, Aizzul Amin and Micky Vincent</i>  Effects of castor oil on <i>Escherichia coli</i> K011 growth and fermentation activities during fed-batch anaerobic fermentation	133
IM04	<i>Erneeza Mohd Hata, Kamaruzaman Sijam, Mohd Termizi Yusof, Khairul Mazmi Ahmad, Noor Aisyah Azman and Tavga Sulaiman</i>  Potential use of <i>Streptomyces</i> strains as plant growth promoters for rice seedling	134
IM05	<i>Fazidah Junaidi, Nadia Shuhada Zonarizam, Huang Chai Hung and Micky Vincent</i>  Growth of <i>Rhizopus oligosporus</i> in sago effluent at different aeration	135
IM06	<i>Huang Chai Hung, Amira Dayana Abdul Rahman, Ennry Esut, Norizawati Muhammad Nur and Micky Vincent</i>  Bioethanol production from sugarcane bagasse, using <i>Escherichia coli</i> K011	136
IM07	<i>Kazi Muhammad Rezaul Karim, Awang Ahmad Sallehin Awang Husaini, Fazia Mohd Sinang and Mohd Hasnain Md Hussain</i>  Glucoamylase production and characterisation from <i>Aspergillus flavus</i> NSH9 under submerged fermentation of raw sago starch	137
IM08	<i>Latifah Suaji, Ummi Syahida Zamri, Huang Chai Hung and Micky Vincent</i>	138

	<b>Lipid accumulation in <i>Lipomyces starkeyi</i> MV-04 cultured in different glucose concentrations</b>	
<b>IM09</b>	<u>Lim Poh Poh Judy, Lee Fong Siow and Geok Yuan Annie Tan</u>	139
	<b>Rigorous selection of ice-nucleating bacteria by freeze thaw cycles</b>	
<b>IM10</b>	<u>Musaalbakri Abdul Manan and Colin Webb</u>	140
	<b>Extract colour as an indicator of growth in solid state fermentation</b>	
<b>IM11</b>	<u>Norizawati Muhamad Nur, Huang Chai Hung and Micky Vincent</u>	141
	<b>Simultaneous saccharification and fermentation of treated sago solid fibre for bioethanol production by <i>Escherichia coli</i> K011</b>	
<b>IM12</b>	<u>Nur Adilah Ahmad Nadzir, Zunita Zakaria and Noraniza Mohd Adzahan</u>	142
	<b>Bacteria isolated from horses wounds</b>	
<b>IM13</b>	<u>Nur Diyana Alyas, Jeffrey Lim Seng Heng, Razali Mirad, and Musaalbakri Abdul Manan</u>	143
	<b>Production of antifungal from <i>Streptomyces imbofaciens</i> using broken rice as a substrate via solid state fermentation</b>	
<b>IM14</b>	<u>Reyad Qaed Al Moheer, Farah Diba Abu Bakar, Nor Muhammad Mahadi and Abdul Munir Abdul Murad</u>	144
	<b>Alpha-galactosidase production by the psychrophilic yeast, <i>Glaciozyma antarctica</i></b>	
<b>IM15</b>	<u>Siti Sarah Sutra, Maizom Hassan, Zeti Azura Mohamed Hussien and Farah Diba Abu Bakar</u>	145
	<b>Optimisation of culture media condition for high vanillin production from <i>Pycnophorus cinnabarinus</i></b>	

**IM16** *Wan Nurhidayah Wan Hanapi, Iuan-Sheau Chin, Nor Muhammad Mahadi, Abdul Munir Abdul Murad and Farah Diba Abu Bakar* 146

**Iterative Site-saturation Mutagenesis (ISM) of the *Glomerella cingulata* cutinase gene for enhanced enzyme thermostability**

**DAY 2**  
**9<sup>th</sup> December 2015**

POSTER NO.	PRESENTER AND POSTER TITLES ENVIRONMENTAL MICROBIOLOGY	PAGE
EM01	<i>Ainihayati Abdul Rahim, Aina Mardia Nasaruddin and Noor Azlina Ibrahim</i>  <b>Isolation of potential biosurfactant producers from hydrocarbon contaminated water</b>	147
EM02	<i>Ainil Hawa, Kumar Sudesh and Nanthini Sridewi</i>  <b>Simultaneous adsorption and photocatalytic degradation of crude oil using electrospun P(3HB)-TiO<sub>2</sub> nanocomposite fibers</b>	148
EM03	<i>Armstrong Ighodalo Omoregie, Irine Runnie Henry Ginjom and Peter Morin Nissom</i>  <b>Isolation and characterisation of urease producing bacteria from Sarawak caves and their role in calcite precipitation</b>	149
EM04	<i>Charles Emeka Obiukwu</i>  <b>Models on the kinetics of phenol utilisation in ammonium phosphate supplemented phenol laden refinery effluent</b>	150
EM05	<i>Chua Chuen Yang and Clemente Michael Wong Vui Ling</i>  <b>Optimisation of DNA extraction methods for tropical soils</b>	151
EM06	<i>Lee Zi Ying, Teo Wee Fei Aaron and Geok Yuan Annie Tan</i>  <b>Fungal diversity of plant Rhizosphere and slope soil</b>	152
EM07	<i>Goh Sin Ming, Chan Mun Yee and Lisa Ong Gaik Ai</i>  <b>Screening of laccase from locally isolated Basidiomycetes</b>	153
EM08	<i>Kang Heeyoung, Kim Haneul and Joh Kiseong</i>  <b><i>Lewinella lacunae</i> sp. nov., isolated from a lagoon</b>	154

<b>EM09</b>	<i>Khansaa Badie Al-Kaddo , Kumar Sudesh and Mohd Razip Samian</i>	155
	<b>Isolation, characterisation and screening of new PHA producing bacteria and the ability of new strain to produce co-polymer with high 3HV composition using waste glycerol with precursors</b>	
<b>EM10</b>	<i>Khor Wei Ching, Puah Suat Moi, Mary Anne Tan Jin Ai, SD Puthuchearu and Chua Kek Heng</i>	156
	<b>Phenotypic and genetic diversity of <i>Aeromonas</i> species isolated from fresh water lakes in Malaysia</b>	
<b>EM11</b>	<i>Kim Haneul, Kang Heeyoung, Kim Kyu-Joong, JangTae Yong and Joh Kiseong</i>	157
	<b><i>Haloarchaeobius ruber</i> sp. nov., isolated from a solar saltern in Korea</b>	
<b>EM12</b>	<i>Lateef Adebola Azeez, Sepiah Muid and Bolhassan Mohamad Hasnul</i>	158
	<b>Physiological studies on mycelial biomass growth of <i>Cunninghamella</i> sp (Zygomycetes) from Sarawak, Malaysia</b>	
<b>EM13</b>	<i>Low Hui Chia, Chai Lay Ching, Jaime Martinez-Urtaza and Thong Kwai Lin</i>	159
	<b>Quantitative detection and characterisation of pathogenic <i>Vibrio cholerae</i> and <i>Vibrio parahaemolyticus</i> at Kelantan and Sarawak</b>	
<b>EM14</b>	<i>Lye Ying Ling, Bong Chui Wei and Chai Lay Ching</i>	160
	<b>High occurrence of sulfonamide resistant bacteria in the water discharge from hospital, zoo and slaughterhouse in Taiping, Perak</b>	
<b>EM15</b>	<i>Muhamad Aidilfitri Mohamad Roslan, Zaima Azira Zainal Abidin and Suhaila Mohd Omar</i>	161
	<b>Screening for ligninase-producing bacteria from south east Pahang peat swamp forest soil</b>	
<b>EM16</b>	<i>Ng Su Ming, Tey Lai Hock, Tan Chew Khun and Leong Siew Yoong</i>	162
	<b>Isolation and screening for microbes in larva of the <i>Hermetia illucens</i> for production of bio-fertilizer</b>	

<b>EM17</b>	<i>Ng Yik Han, Sabda Safiee, Chia Hwa Chuan, Ann Anni Basik and Yeo Tiong Chia</i>	163
<b>Actinomycetes fermentation targeting various compounds production</b>		
<b>EM18</b>	<i>Noor Nazihah Ghazali, Zaima Azira Zainal Abidin and Suhaila Mohd Omar</i>	164
<b>Comparison of different agar plates used in the isolation of bacteria from Pekan peat swamp forest soil</b>
