**On equivalence of parameterized surfaces with respect to linear change of parameters** (Conference Paper)[Bekbaev, U.](#)

Department of Science in Engineering, Faculty of Engineering, International Islamic University Malaysia, Malaysia

## Abstract

[View references \(5\)](#)

The **equivalence** problem of **parameterized surfaces** with **respect** to linear changes of **parameters** is considered. Separating systems of invariants and uniqueness theorem are offered. The field of invariant differential-rational functions over the constant field is described as a differential field by giving a finite system of generators.
