The Author

Associate Professor Dr Maizatun Mustafa obtained her LLB degree from the International Islamic University Malaysia in 1992, her MCL from the same University in 1993 and her PhD from the School of Oriental and African Studies, University of London in 2001. She has been a lecturer at the International Islamic University Malaysia since then and is currently an Assistant Professor attached to the Department of Public Law. Her major areas of interest are environmental law and the Malaysian legal system. She was appointed a consultant for the Department of Irrigation and Drainage Malaysia in 2005 for a project on 'Study and Detailed Design for Pollution Prevention and Water Quality Improvement' for the Pinang River in Pulau Pinang. In 2002–2003, she was a consultant for the Ministry of Work Malaysia for a project on 'National Water Commission', and for this, she was awarded the 'Excellent Research Award' by the International Islamic University Malaysia in 2003. She has authored many articles in numerous publications and has presented at many conferences, both local and international. She is a consultant with the Land Tenure and Environmental Management Unit (LATEM), and International Law & Maritime Unit (ILMA) Ahmad Ibrahim Kulliyah of Laws, International Islamic University Malaysia. She is also a member of the IUCN Academy of Environmental Law.

Table of Contents

The Author	3
List of Abbreviations	17
General Introduction	19
§1. GENERAL INFORMATION	19
I. Geography and Population	19
II. Legal and Political Structure	19
III. Economic Characteristics	20
IV. Social and Cultural Characteristics	20
V. Main Environmental Problems	20
§2. BASIC PRINCIPLES OF ENVIRONMENTAL LAW	21
I. The Constitution	21
II. The Institutional and Legal Framework on Sustainable Development	22
A. Agencies	22
B. Legislations	23
§3. HISTORICAL BACKGROUND	23
§4. THE ROLE OF GOVERNMENT INSTITUTIONS IN THE SHAPING AND ADMINISTRATION OF ENVIRONMENTAL LAW AND POLICY	24
I. Governmental Institutions and Their Competencies	24
A. Constitutional Set Up	24
B. Legislative Lists	25
II. Administrative Set Up	26
A. Federal Level	26
B. State Level	27
C. Local Level	27
D. Statutory Bodies/Corporatization	28
E. Privatization	28
F. State and Federal Coordination	29
III. The Actual Role of the Governmental Institutions	30

Table of Contents

Environmental Law in Malaysia

THIRD EDITION

MAIZATUN MUSTAFA

Derived from the renowned multi-volume *International Encyclopaedia of Laws*, this book provides ready access to legislation and practice concerning the environment in Malaysia. A general introduction covers geographic considerations, political, social and cultural aspects of environmental study, the sources and principles of environmental law, environmental legislation, and the role of public authorities.

The main body of the book deals first with laws aimed directly at protecting the environment from pollution in specific areas such as air, water, waste, soil, noise, and radiation. Then, a section on nature and conservation management covers protection of natural and cultural resources such as monuments, landscapes, parks and reserves, wildlife, agriculture, forests, fish, subsoil, and minerals. Further treatment includes the application of zoning and land-use planning, rules on liability, and administrative and judicial remedies to environmental issues. There is also an analysis of the impact of international and regional legislation and treaties on environmental regulation.

Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for environmental lawyers handling cases affecting Malaysia. Academics and researchers, as well as business investors and the various international organizations in the field, will welcome this very useful guide, and will appreciate its value in the study of comparative environmental law and policy.
