## Titles indexed in Scopus: Check before you publish

Publication malpractice is an unfortunate occurrence in the world of scholarly literature. It happens in all subject areas and in all jurisdictions and few journals or books are immune. Here at [Scopus](#), we have recently received notification of journals that purport to be indexed by Scopus but really are not. These journals have even gone as far as to forge letters from the Head of Scopus Content (signature and all)! And just because a journal may have a Scopus logo on their web site, this does not mean they're indexed in Scopus.

# How to measure Impact?

$$\text{Impact Factor} = \frac{\text{no. of citations}}{\text{total no. articles}}$$

calculated over the last 2 years

Example:

$$\text{Impact Factor} = \frac{\text{Cites in 2009 to 2007 or 2008 papers}}{\text{Papers published in 2007 or 2008}}$$

## Journal Impact Factor ⓘ
