## Critical Care

Volume 21, Issue 1, 21 November 2017, Article number 283

## Identifying 'at-risk' patients for sub-optimal beta-lactam exposure in critically ill patients with severe infections

(Editorial)

Abdul-Aziz, M.H.<sup>2,3</sup> Lipman, J.<sup>2c</sup> Roberts, J.A.<sup>2,3c</sup> <sup>2</sup>Faculty of Medicine, University of Queensland Centre for Clinical Research (UQCCR), The University of Queensland, Building 71, 918 Royal Brisbane and Women's Hospital, Brisbane, QLD, Australia<sup>3</sup>School of Pharmacy, International Islamic University Malaysia, Kuantan, Malaysia<sup>4</sup>Royal Brisbane and Women's Hospital, Department of Intensive Care Medicine, Brisbane, QLD, Australia[View additional affiliations](#) ▾

## Abstract
