Summation by riesz means of the fourier-laplace series (Article)

bin Rasedee, A.F.N.^a, Rakhimov, A.^b [✉](#), Akhmedov, A.^c^aFaculty of Economics and Muamalat, Universiti Sains Islam Malaysia, Malaysia^bDepartment of Science in Engineering, International Islamic University Malaysia, Malaysia^cFaculty of Industrial Sciences and Technology, Universiti Malaysia Pahang, Malaysia

Abstract

[View references \(15\)](#)

In this work, we investigate conditions for summability of the Fourier-Laplace series of integrable functions by Riesz means. The kernel of Riesz means is estimated through comparison with the Cesaro means. Properties of D and D^* points are required in obtaining this estimation. © 2018, University of Nis.
