Wang, L., Meng, Z., Liu, X., Zhang, Y., Lin, H.

Genetic diversity and differentiation of the orange-spotted grouper (Epinephelus coioides) between and within cultured stocks and wild populations inferred from microsatellite DNA analysis

(2011) *International Journal of Molecular Sciences*, 12 (7), pp. 4378-4394. Cited 22 times.

DOI: 10.3390/ijms12074378

State Key Laboratory of Biocontrol, Institute of Aquatic Economic Animals and the Guangdong Province Key, School of Life Sciences, Sun Yat-Sen University, Guangzhou 510275, China

Author Keywords
Differentiation; Epinephelus coioides; Genetic diversity; Microsatellite; The orange-spotted grouper

Index Keywords
DNA marker, genomic DNA, microsatellite DNA, microsatellite DNA; allele, analysis of variance, animal tissue, article, China, controlled study, DNA determination, DNA polymorphism, Epinephelus coioides, fish, fish genetics, fish stock, genetic screening, genetic variability, heterozygosity, microsatellite marker, multidimensional scaling, nonhuman, nucleotide sequence, population differentiation, population genetic structure, Southeast Asia, species comparison, species difference, structure analysis, wild species, animal, bass, Bayes theorem, genetic polymorphism, genetics, genotype, heterozygote; Epinephelinae, Epinephelus coioides; Alleles, Animals, Bass, Bayes Theorem, Genetic Variation, Genotype, Heterozygote, Microsatellite Repeats, Polymorphism, Genetic
