Ex-Dean & Chairman, Department of Management, Jamia Hamdard, New Delhi - India

Date:

To,

Dr. Suhaimi Mhd Sarif

Department of Business Administration,
International Islamic University, Malaysia

Dear Dr. Suhaimi,

Management of Frozen World & Melting Economies(Series of Thematic Webinars), is proposed to be organized by the Faculty of Commerce, AMU, Aligarh, India. We are trying to facilitate a platform for the academic fraternity to deliberate on post-covid19 issues, to be faced by the humanity at large. Through sharing the ideas, we may nurture a vision, Mission and action plan for the national and international community.

Therefore, we as a 'Human Fraternity' intend to facilitate a platform to deliberate on interventions and strategies of various nations, learn from their respective success and failures, and synthesize the solutions in a more integrated fashion so as to implement the same while contextualization remains as a matter of choice. We have to deliberate and predict repercussions of this problem and its potential socio-economic solutions. (We request you to kindly avoid national political issues and opinions.)

Hence, we invite experts including academicians, Industrialists, bureaucrats to share their experiences, suggest policy interventions. Thus, on behalf of Aligarh Muslim University I invite you to a panel discussion Webinar being hosted on 4th May20, at 11.30am, Indian time. Your kind cooperation might give a star in the eye of the last man of the planet, staring in vain while evolving a world vision that is pragmatic and more humanoid.

Please find the brochure enclosed herewith for your kind perusal and action.

With warm regards,

Dr. Imran Saleem
Professor & Dean
Faculty of Commerce
AMU, Aligarh
