

2nd IIIT Regional Workshop on Writing Research Proposal

IIIT East and Southeast Asia will be organizing a workshop on preparing research proposals for topics on integration of knowledge for postgraduate students who are in the process of preparing their research proposals.

This workshop will be held online for two days from 13th to 14th March 2021. The participants will be introduced to the essential concepts and tools for writing and preparing research proposals.

Participants will be guided by experienced professors and researchers in various disciplines who will guide them to develop their research proposals for their thesis on the topic of integration of Islamic and conventional knowledge.

Objectives of the workshop

1. To provide proper guidance for researchers in preparing their research proposals so that the proposed research project may begin as scheduled.
2. To assist researchers to develop topics for their research on integration of knowledge in various disciplines.
3. To assist researchers to create a good and quality research proposal for their Masters or Ph.D. programs.

Who Should Attend

Young academicians, young researchers and newly registered postgraduate's candidates for Masters and Ph.D.

What will participants get in the workshop?

1. IIT E-book
2. Slide presentation
3. E-certificate

13th March (Saturday)	
Time (Malaysia)	Programme
9:00 am - 10:00 am	Ta'aruf and Workshop Briefing
10:00 am - 11:00 am	<p>Brief Introduction to Writing a Research Proposal - Basic Elements of a Research Proposal</p> <ol style="list-style-type: none">1. Selecting the right topic - A research proposal is written to determine the scope and objectives of the research. Thus, you should find the subject area of your research to choose a topic. The topic should be clear, summative and concise. The topic should reflect the integration of knowledge.2. Writing the purpose of the research - The first question you need to answer in a research proposal is the purpose of the research. You need to explain the facts of the problem, its importance etc....3. Collect relevant statistics and data - define the methods for the collection of data and research you have intended for your project. You can choose qualitative and quantitative methods to collect your data and statistics.4. Review the relevant literatures (Books, articles, report etc...)5. Integration of Islamic values in your research.6. Ethical issues in the research process – Islamic and conventional ethics. <p>RESEARCH PROPOSAL FORMAT 1: TITLE Always choose title as per your subject and targeted audience. Your title should be clear concise and summative.</p>

2: BACKGROUND AND RATIONALE

This section includes the description of background and issues, identifying your discipline, writing a short literature review and explaining the developments in the field and key debates.

3: RESEARCH QUESTIONS AND OBJECTIVES

Explain the problems and issues of the research questions, and write the research objectives.

4: RESEARCH METHODOLOGY

While writing a research methodology, you must focus on the following:

- Draw theoretical resources;
 - Include the approach of your research;
 - Find the relevant research methods you have followed.
- Describe the advantages and limitations of methods and approaches.

5: TIME & WORK SCHEDULE

6: BIBLIOGRAPHY

The bibliography is a list of books, their printing, authorship, publications, etc. It is mainly referred to in academic work like an essay, term paper, research proposal, dissertation, etc. It includes the following things:

- Reference lists for texts and articles which have been explained in the research proposal;
- Relevant sources for the proposed research.
