6.3	Biobank Standards	107

6.4 Use of Information by Third Parties	107
6.4.1 The Possibility of Multiple Uses of the Same Sample in Different and Unforeseen Research Project.....	108
6.4.2 The Possibility of Sharing Samples Among Collaborators, Including International Collaborators and Commercial Entities.....	109
6.5 The Position Under the Shari'ah	109
6.6 Conclusion	110

CHAPTER 7

CONCLUSION	112
References	115
Index	121

A Handbook on Medical Ethics and Law in Malaysia is an essential read for medical students in particular and serves as a constant guide for medical doctors as well as healthcare professionals in general. It will also be of interest for law students and lawyers who want to have a closer look at the relationship between medicine, ethics and law. This handbook succinctly highlights the primary expectation that all patients have towards their medical doctors. It helps students grasp the meaning of fiduciary duty and the various ethical principles and legal principles that relate to it.

The handbook also provides case studies and court decisions that will help students, medical doctors and all health professionals alike in better understanding the application of these ethical and legal principles to difficult real-life situations. This handbook is indeed a **MUST HAVE** for medical students and doctors as well as anyone interested in the interface between medicine, ethics and the law.

Zilfalil Alwi is a senior consultant pediatrician and clinical geneticist at the School of Medical Sciences, Universiti Sains Malaysia (USM), Kota Bharu, Kelantan. He received his specialist training in Pediatrics [Master of Medicine (Pediatrics)] from the same university and later went to study at the University of Glasgow, United Kingdom where he obtained a MSc in Medical Genetics and then to the University of Aston where he obtained a PhD in Pharmacogenetics. Zilfalil is the founder and head of the Malaysian Node of the Human Variome Project (MyHVP). He is a member of the Board of Directors of Human Variome Project International and is the joint chairman for Global Globin 2020 Challenge (GG2020). He has also served as the

Director of USM Human Genome Center from 2005 to 2009. Zilfalil is the Chief Editor of several journals including the *Malaysian Journal of Pediatrics and Child Health* and the *Malaysian Journal of Human Genetics*. He is a council member of the College of Pediatrics, Academy of Medicine of Malaysia and fellow of this academy. He is also the founding president of the Malaysian Society of Human Genetics.

Majdah Zawawi is an associate professor at the Department of Islamic Law, Ahmad Ibrahim Kulliyah of Laws, International Islamic University Malaysia (IIUM). She obtained her LLB, LLB(S), MCL and PhD from IIUM. She is a non-practising advocate and solicitor of the High Court of Malaya who chose to continue her career in the world of academia. Her doctoral thesis was on the legal and ethical aspects of assisted reproductive technologies in Malaysia, where she examined the need to balance between the rights of a person to reproduce with the responsibilities that should also come with it. Since then, she has actively been involved in researching and writing on various issues relating to biomedical ethics and its relationship with the law, especially Islamic law.
