NATIONAL MATERNAL FETAL MEDICINE HYBRID CONFERENCE 2021

From Strategy to Action

2ND TO 4TH APRIL 2021

GRAND DARUL MAKMUR HOTEL, KUANTAN, PAHANG

[HTTPS://WWW.MFMCHTAA2021.COM](https://www.mfmchtaa2021.com)

Respected colleagues,

Welcome to the 4th National Maternal Fetal Medicine *Hybrid* Conference 2021.

It is with the greatest pleasure that the Maternal Fetal Medicine Unit of Hospital Tengku Ampuan Afzan, Kuantan invite you to actively participate in this conference for the three informative days scheduled from 2nd to 4th April 2021. Embracing the new norm with COVID-19 Pandemic, let us allow our enthusiasm and energy going to keep up with the progress in our fraternity to care for pregnant mothers and babies from recent evidence, multidisciplinary team expert opinion and experiences via our first hybrid conference.

Together we care, from strategy to action!

Primary health care providers remain the first person to attend to patients with medical or surgical conditions getting the utmost attention of the primary team until they get into pregnancy. Among our many concerns include our understanding on the risk of pregnancy with specific conditions and how it impacts on any present disease to the pregnancy and vice versa.

We are here to share on the care of patients from pre-conception and throughout their pregnancy. While the disease is best managed by the expert of that area, Maternal Fetal Medicine combined care on how physiological changes in pregnancy add value into patient's wellbeing and growth of the little one.

The organising committee has prepared an impactful program that encompasses an array of distinguished speakers, up-to-date topics and interactive sessions. With more than 25 titles to be shared over the three days conference, maternal and fetal conditions issues will be our focus with the aim to further understand diagnostics, interventions and management until postpartum.

We look forward to meeting all of you at Grand Darul Makmur Hotel, Kuantan or on the virtual platform to begin our step in taking our strategy to action.

Dr Roziah binti Husin
Organising Chairperson

4th National Maternal Fetal Medicine *Hybrid* Conference 2021
