

## BEST PRACTICES IN CENTRAL VENOUS ACCESS DEVICES CARE AND MANAGEMENT

Date : 03 September 2022, Saturday

Time : 0800 - 1600

Venue: Auditorium,  
Hospital Canselor Tuanku Muhriz UKM,  
Cheras, Kuala Lumpur

This seminar has been designed to support and guide clinical management of central venous access devices based on the best, currently available evidences.

## What You Will Achieve at the End of the Seminar:

- Identify different types of CVADs;
- Explain the advantages and disadvantages associated with each type of CVADs;
- Discuss key practice points and principles to adhere prior, during and immediately after CVAD insertion;
- Describe methods to prevent and manage CVAD complications;
- Outline key principles regarding CVAD removal;
- Discuss key practice points for CVAD patient assessment and education;
- Describe the principles and practices for CVAD management – patency, dressings, needleless connectors, blood sampling; and
- Identify elements, key reasons for and frequency of CVAD documentation
